Curriculum for Fabrication of Electrical Switch boards

2017-18

UNIT: 1

Analysis of fabrication procedure of a switch boards and collection of basic components such as switch, socket, LED indicator, wire. Preparing the wooden frame of desired size depending on the switches to be fixed.

UNIT: 2

After the board frame is ready, the wiring is done with proper electrical connections. The entire positive and the negative terminals of the switches and corresponding sockets are connected in series and are seen that they do not interfere with each other to prevent short circuit. An indicator lamp is connected in series as well. Fuses are always connected in series with the wire. The current flows through the circuit to protect the electrical appliances connected to the circuit. The grounding is made finally and a three pin plug is connected carefully. It is made sure that the connections are made properly.

Fabrication of Electrical Switch boards

2017-18

Assessment Procedure:

- The switch board designed and fabricated by the students is submitted for assessment. The teacher in charge checks the fabricated board with AC input 220V and 50Hz. Based on the working of the fabricated boards certificates are awarded.
- To pass this certificate course a pass mark of 50% is required.
- Evaluation for skill practical for every student at each training session.
- Certificate is issued for all successfully passing students.
- In case of unsuccessful completion the students may seek another assessment test.

Curriculum for Soldering & Fabrication of Electrical boards

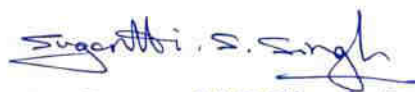

2017-18

UNIT: 1

Identification of basic electronic components such as resistors, capacitors, inductors, PCB boards, IC's, transistor, pnp transistor, npn transistors LDR, LED, PN Diode, Zener Diode, DC motor, Battery, Battery caps, Reset Switch, Rainbow wire, Transformer, step down transformer, step up transformer, Voltage regulator, bread board, Thermistor, Buzzer etc..

UNIT: 2

After identification, the student is exposed to soldering procedure. Later, on completion of the circuit board the student is allowed to check the connectivity of components along with input and output voltage and current.

Add-on/Certificate course on 'Enhancement of Basic Numeracy Skills'

2017-18

Background

Almost all the Competitive examinations have one section of problems named 'Aptitude'. Further, basic calculations with numbers such as natural numbers and fractions and also basic logic and reasoning are part and parcel of every-day life. It is also to be noted that many students have aversion towards mathematics since childhood for various reasons. Keeping all these in mind, to help the students develop basic aptitude as well as numeracy skill, this certificate course has been designed. This course not just helps the students for their competitive examinations, but also their day to day life.

Eligibility for admission into the course and structure

Any final year B.Sc/B.Com student studying in Sarada Vilas College during 2017-18 is eligible for this course. The course is of 30 hours duration (distributed over two or three months).

Eligibility for certificate

A candidate fulfilling all the below mentioned criteria are eligible for the certificate.

Attendance: 75 %

Overall score: 50%

Assessment pattern

There will be two formative assessments C1 and C2 each for 20 marks.

C1 – Test (20 Marks)

C2 – Assignment or Quiz (20 Marks)

A final summative assessment **C3** will be for 60 marks.

(Hence a candidate with attendance greater than or equal to 75% will be considered pass only if he scores 50 marks out of 100)

Grading

Distinction – for scores greater than or equal to 80%

First Class – For scores greater than or equal to 60% and less than 80%

Pass Class – Greater than or equal to 50% and less than 60%

Not cleared – Less than 50%

Course outcomes

At the end of this course, a student will be able to

1. Reproduce alternative strategies for addition, subtraction, multiplication and division among natural numbers.
2. Recall the definition and types of fractions.
3. Perform basic operations such as addition, subtraction, multiplication and division among fractions.
4. Solve some day to day problems involving fractions.
5. Recall definitions of basic terminologies related to banking such as loan, rate of interest, simple and compound interests, principal amount etc.
6. To solve some daily life problems related to loans and rate of interests.

SYLLABUS**

Duration:30 hours

UNIT – I

Vermitechnology- Definition, history, growth and development in other countries & India, significance.

UNIT – II

Vermiculture – definition, scope and importance; common species for culture; Environmental parameters; culture methods – wormery – breeding techniques; indoor and out door cultures - monoculture and polyculture – merits and demerits.

UNIT – III

Vermicomposting of wastes in field pits,ground heaps, tank method,roof shed method,top fed windrows, wedges & bin method,harvesting the compost, storage, Vermiwash-Preparation and application

UNIT – IV

Applications of vermiculture – Vermiculture Bio-technology, vermicomposting, use of vermicastings in organic farming/horticulture.

UNIT – V

Future perspectives – Predator / pathogen control in wormeries; Potentials and constraints for vermiculture in India. Visit to relevant Labs/Field Visits.

**REPORT ON
CERTIFICATE COURSE ON "VERMICULTURE TECHNOLOGY"**

The department of Zoology conducted add on certificate course titled "VERMICULTURE TECHNOLOGY" with duration of 30 hours with strength of 28 students. The Vermiculture technology is the study of cultivation of earthworms for the purpose of using them to decompose organic wastes into nutrient-rich fertilizers. Students were trained on how to maintain a small vermicomposting bin as a simple method for converting the kitchen waste. The classes were held on every Saturday. Ms. Bindushree was the coordinator of the course. The students were issued certificates after successful completion.

VERMICULTURE TECHNOLOGY

Duration:30 hours

COURSE OUTCOME

- The course is structured at the basic level for the benefit of the students coming from different discipline having broad scope for employability.
- In general soil earthworms, their characteristic features, occurrence, their influence on soil fertility and solid waste management are included.
- Vermicomposting technology broadly followed at the global level and some Indigenous methods, role of microbes in increasing the soil fertility by the action of earthworms, their advantages and limitations dealt.
- Role of microbes in worms and in decomposition is discussed.
- Vermiculture products and their benefits in agriculture practice, economics of vermiculture technology along with the practical difficulties are included.
- Students will be trained on how to maintain a small vermicompost bin as a simple method for converting the Kitchen waste.

Add-on/Certificate course on 'Enhancement of Writing Skills in Kannada'

2017-18

Background

Kannada language plays a vital role as it is mandatory in competitive exams. This course has been designed to inculcate Mother tongue in a flaw less manner and to make students aware of the heritage of the language regarding its grammar, history, error-proof writing and its modernism. The glory of the language dates back to centuries has its own script. Along with that the purpose is to instill a love of language and reading habits.

Eligibility for admission into the course and structure

Any final year B.Sc/B.Com student studying in Sarada Vilas College during 2017-18 is eligible for this course. The course is of 30 hours duration (distributed over two or three months).

Eligibility for certificate

A candidate fulfilling all the below mentioned criteria are eligible for the certificate.

Attendance: 75 %

Overall score: 50%

Assessment pattern

There will be two formative assessments C1 and C2 each for 20 marks.

C1 – Test (20 Marks)

C2 – Assignment or Quiz (20 Marks)

A final summative assessment C3 will be for 60 marks.

(Hence a candidate with attendance greater than or equal to 75% will be considered pass only if he scores 50 marks out of 100)

Grading

Distinction – for scores greater than or equal to 80%

First Class – For scores greater than or equal to 60% and less than 80%

Pass Class – Greater than or equal to 50% and less than 60%

Not cleared – Less than 50%

Report on the Certification Course

In the academic year 2017-18, to assist the students in shaping their professional life and to help the students for their further studies/examination, we organized the Certification Course on **Basic English Grammar and Communication skills** for B.Sc. students. The classes were taken for 3 months from June to August, which was proportionate to their odd semester. Since the aim is to enrich the student's skill to use the global language for his/her wellbeing, we set the timetable in such a way that a teacher has to focus each student's performance in the class. So, among the 30 students, we made the two batches (15 students each) and 2 classes per batch in a week.

Basic English Grammar and Communication Skills
2017-18

Outcome:

After completing this course, the students' benefits are as follows:

- The Effective communication is fundamental for the success in many aspects of life. Importance of language is a primary medium through which learning takes place in educational and everyday experiences.
- Basic objective of this certificate course is to gradually develop their LSRW- listening, speaking, reading and writing skills through the communicative approach of teaching and learning – a basic language understanding.
- It can also improve their vocabulary and grammar. This can help students apply for higher studies and lead to jobs as writer, editor, researcher etc.
- Through this, students strengthen their communication skills and become more proficient writers. In addition, this certificate reflects their skill set and provides credibility to potential employers.

Curriculum for Fabrication of Electrical Switch boards

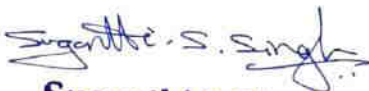

2018-19

UNIT: 1

Analysis of fabrication procedure of a switch boards and collection of basic components such as switch, socket, LED indicator, wire. Preparing the wooden frame of desired size depending on the switches to be fixed.

UNIT: 2

After the board frame is ready, the wiring is done with proper electrical connections. The entire positive and the negative terminals of the switches and corresponding sockets are connected in series and are seen that they do not interfere with each other to prevent short circuit. An indicator lamp is connected in series as well. Fuses are always connected in series with the wire. The current flows through the circuit to protect the electrical appliances connected to the circuit. The grounding is made finally and a three pin plug is connected carefully. It is made sure that the connections are made properly.

Fabrication of Electrical Switch boards

2018-19

Assessment Procedure:

- The switch board designed and fabricated by the students is submitted for assessment. The teacher in charge checks the fabricated board with AC input 220V and 50Hz. Based on the working of the fabricated boards certificates are awarded.
- To pass this certificate course a pass mark of 50% is required.
- Evaluation for skill practical for every student at each training session.
- Certificate is issued for all successfully passing students.
- In case of unsuccessful completion the students may seek another assessment test.

Fabrication of Electrical Switch boards

2018-19

Outcome:

After completing this course, the students will be able to:

- Apply basic concepts of various electronic components.
- Perform manual soldering of the components.
- Perform inspection of the assembled board and soldered components.
- Demonstrate correct interaction techniques with teachers and co participants.
- Comply with the health and safety guidelines to maintain a safe laboratory.

2018-19

UNIT: 1

Identification of basic electronic components such as resistors, capacitors, inductors, PCB boards, IC's, transistor, pnp transistor, npn transistors LDR, LED, PN Diode, Zener Diode, DC motor, Battery, Battery caps, Reset Switch, Rainbow wire, Transformer, step down transformer, step up transformer, Voltage regulator, bread board, Thermistor, Buzzer etc..

UNIT: 2

After identification, the student is exposed to soldering procedure. Later, on completion of the circuit board the student is allowed to check the connectivity of components along with input and output voltage and current.

Soldering & Fabrication of Electrical boards

2018-19

Assessment Procedure:

- At the end of the Add on course each students is given a practical test for one hour duration to fabricate a small electrical device.
- The device is checked by the teacher in charge and assessed for the same.
- To pass this certificate course a pass mark of 50% is required.
- Evaluation for skill practical for every student at each training session.
- Certificate is issued for all successfully passing students.
- In case of unsuccessful completion the students may seek another assessment test.

Report of Add-on course

Department of Physics

2018-19

Add-on course title: **Soldering and Fabrication of electrical boards**

Duration and date: 30hrs and 5/01/2019

Teachers in charge: 1) Prathap M R

2) Spoorthi B S

No. of students: 30

The department of physics conducted an Add-on course titled **Soldering and Fabrication of electrical boards** for 30 hours, 30 students participated in this course. Two teachers were in charge of the Add-on course. The students were issued certificate after successful completion of this Add-on course.

Soldering & Fabrication of Electrical boards

2018-19

Outcome:

After completing this course, the students will be able to:

- Apply basic concepts of various electronic components.
- Perform manual soldering of the components.
- Perform inspection of the assembled board and soldered components.
- Demonstrate correct interaction techniques with teachers and co participants.
- Comply with the health and safety guidelines to maintain a safe laboratory.

Add-on/Certificate course on 'Enhancement of Basic Numeracy Skills'

2018-19

Background

Almost all the Competitive examinations have one section of problems named 'Aptitude'. Further, basic calculations with numbers such as natural numbers and fractions and also basic logic and reasoning are part and parcel of every-day life. It is also to be noted that many students have aversion towards mathematics since childhood for various reasons. Keeping all these in mind, to help the students develop basic aptitude as well as numeracy skill, this certificate course has been designed. This course not just helps the students for their competitive examinations, but also their day to day life.

Eligibility for admission into the course and structure

Any final year B.Sc/B.Com student studying in Sarada Vilas College during 2018-19 is eligible for this course. The course is of 30 hours duration (distributed over two or three months).

Eligibility for certificate

A candidate fulfilling all the below mentioned criteria are eligible for the certificate.

Attendance: 75 %

Overall score: 50%

Assessment pattern

There will be two formative assessments C1 and C2 each for 20 marks.

C1 – Test (20 Marks)

C2 – Assignment or Quiz (20 Marks)

A final summative assessment **C3** will be for 60 marks.

(Hence a candidate with attendance greater than or equal to 75% will be considered pass only if he scores 50 marks out of 100)

Grading

Distinction – for scores greater than or equal to 80%

First Class – For scores greater than or equal to 60% and less than 80%

Pass Class – Greater than or equal to 50% and less than 60%

Not cleared – Less than 50%

Course outcomes

At the end of this course, a student will be able to

1. Reproduce alternative strategies for addition, subtraction, multiplication and division among natural numbers.
2. Recall the definition and types of fractions.
3. Perform basic operations such as addition, subtraction, multiplication and division among fractions.
4. Solve some day to day problems involving fractions.
5. Recall definitions of basic terminologies related to banking such as loan, rate of interest, simple and compound interests, principal amount etc.
6. To solve some daily life problems related to loans and rate of interests.

VERMICULTURE TECHNOLOGY

SYLLABUS

Duration:30 hours

UNIT – I

Vermitechnology- Definition, history, growth and development in other countries & India, significance.

UNIT – II

Vermiculture – definition, scope and importance; common species for culture; Environmental parameters; culture methods – wormery – breeding techniques; indoor and out door cultures - monoculture and polyculture – merits and demerits.

UNIT – III

Vermicomposting of wastes in field pits, ground heaps, tank method, roof shed method, top fed windrows, wedges & bin method, harvesting the compost, storage, Vermiwash-Preparation and application

UNIT – IV

Applications of vermiculture – Vermiculture Bio-technology, vermicomposting, use of vermicastings in organic farming/horticulture.

UNIT – V

Future perspectives – Predator / pathogen control in wormeries; Potentials and constraints for vermiculture in India. Visit to relevant Labs/Field Visits.

REPORT ON
CERTIFICATE COURSE ON "VERMICULTURE TECHNOLOGY"

The department of Zoology conducted add on certificate course titled "VERMICULTURE TECHNOLOGY" with duration of 30 hours with strength of 32 students. The Vermiculture technology is the study of cultivation of earthworms for the purpose of using them to decompose organic wastes into nutrient-rich fertilizers. Students were trained on how to maintain a small vermicomposting bin as a simple method for converting the kitchen waste. The classes were held on every Saturday. Ms. Bindushree was the coordinator of the course. The students were issued certificates after successful completion.

VERMICULTURE TECHNOLOGY

Duration:30 hours

COURSE OUTCOME

- The course is structured at the basic level for the benefit of the students coming from different discipline having broad scope for employability.
- In general soil earthworms, their characteristic features, occurrence, their influence on soil fertility and solid waste management are included.
- Vermicomposting technology broadly followed at the global level and some Indigenous methods, role of microbes in increasing the soil fertility by the action of earthworms, their advantages and limitations dealt.
- Role of microbes in worms and in decomposition is discussed.
- Vermiculture products and their benefits in agriculture practice, economics of vermiculture technology along with the practical difficulties are included.
- Students will be trained on how to maintain a small vermicompost bin as a simple method for converting the Kitchen waste.

“SMART” – Programme – A brief report

Post-Graduation is a terminal course. After pursuing their PG course, they have three options before them. The first option is that the students can continue their education by pursuing research. Second option is that they can select a good professional life seeking jobs in MNC's in India or in abroad. Third option is that they can start their own establishment as an entrepreneur. For any of the above three options, the classroom knowledge obtained and the marks obtained in the university examination may not be sufficient. They need to have specialized skills. As the specialized skill cannot be thought in the class room alone, a good number of private agencies are providing training the youth imparting to inculcate such skills. Such skills are difficult to teach but can be motivated to develop within oneself. Industrialists expect such skills from their employees. Government and educationists are also training their wards to develop the required skills by organizing programmes for the youth to make them fit in their professional life as well as personal life. One such effort is designed and development by Sarada Vilas College PG Centre – M.Com under the leadership of Prof. Satyanarayana, Dean, with the encouragement from the President and Principal of the institution.

The course is called ‘SMART’ – Programme. The expansion of ‘SMART’ is: Skills for Management and Administrative Responsibility Training. The course needs to be organized outside the college campus 24x7 for three or four days. Because their mind should be free from home issues, academic issue so that totally concentrate on developing the skills. No mobiles, no TV, no entertainments, no sports, no contact with external disturbing issues, are the reasons for having 24x7 outside campus and home atmosphere.

In the programme expert professional and personal skill trainers are invited to deliver, deliberate and discuss with the trainees, with case studies, activity based interactions. Such thing should be planned before entering into the final year PG course, but after the first year, preferably during the vacation. Because, when they enter the final year, their attitude, vision should be changed to focus on future life: both professional and personal in addition to their academics. It is a self financed programme, organized by the students only. The roles of teachers are only guiding, monitoring, coordinating and controlling the issues.

In the background of the above, the Sarada Vilas College, PG Centre-M.Com has planned this activity in the month of April after discussion with the President and Principal, to organize it just before the commencement of third semester. As per the calendar, third semester had to start from 10th July 2018. So, it was planned for July 6th, 7th and 8th 2018. However the university has changed its calendar.

Then we started searching for the suitable venue. At last, we got the ‘Youth Hostel’. ‘Youth Hostel’ is an organization comes under the Ministry of Youth Affairs and Sports, Government of India. We could able to get the special concession to the students to utilize the venue for ‘SMART’

Programme As there is a lot of demand for the 'Youth Hostel' the accommodation, food arrangement was made in the May itself. The 'Youth Hostel' is having the good greenery inside the campus. Rooms are neat and clean. Separate accommodation for male and female are available. This hostel is mainly for people from other countries visiting Mysuru as a tourist or for academic reason.

In this 'SMART' - Programme, several skills are thought through practical approach. The detailed schedule is enclosed here with. Due to the efforts of teachers and students, all invited resource persons were on time without making the organizers to reschedule the time. To mention a few: Yoga, Pranayama, Time Management, Stress Management, Human Relations and Interpersonal Skills, Team Building, Entrepreneurship, Cross Culture, Body Language, Effective Communication, Employability Skill - Interview and Group Discussion, Moral Values and Leadership Management. The resource persons were Mr. Harish Machia, Management Consultant, Teacher and Learning and Development Practitioner; Mr. Zubair Ahmed, Managing Director, G.M. Gems and Minerals; Mr. Syed Aftab Ahmed, Soft Skill Trainer; Mr. Anath Ramesh, HR Professional/ HR Mentor; Mr. Ajay Kiran, Founder - Proprietor, Rocket Events; Mr. M.B. Shiva Shankar, Soft Skills Trainer and Voice Artist; Mr. Chirantana, Founder-Fresherscareer.co.in; Ms. Ramya T J, Assistant Professor, Sapient Education Trust and Mrs. Kusuma, Yoga teacher.

The inauguration was planned to have in the presence of the institutional heads - President, Hon. Secretary, Principal and the University of Commerce department Chairperson. Due to unavailable reasons, President, Hon. Secretary could not attend but they sent blessings to the students and wished all success. Dr. N Nagaraj Chairman, DOS in Commerce, Mysuru expressed that "This is a unique programme, such thing has not thought by any one in Karnataka. I congratulate the Sarada Vilas College for this kind of innovative programme. It is an example to university and our department should plan such activities, as skills are the need of the hour". Mr. M. N. Nataraj director, Nehru Yuva Kendra, Ministry of Youth Affairs and Sports also graced the occasion. Dr. M Govindaraju Principal, Sarada Vilas College welcome the gathering. Dr. Satyanarayana gave the Key Note Address and Smt. Jyothi A N delivered vote of thanks.

All technical sessions went on smoothly. All resource persons are experts in their own topic of delivering skills and some of them are international trainers. Students are happy with the programme. The feedback taken from the students orally and in writing reflects that they learnt something more than what they expected.

The entire programme went off as per the schedule without any change in time or resource persons etc. In the valedictory function, Dr. K.J. Muralidhara Rtd. Principal and Dr. M Govindaraju Principal, Sarada Vilas College were present and graced the occasion. They felt happy after listening to the feedback from the students. They congratulated the students and faculty for the efforts in organizing this programme and wished all the best to the students with tips for their future professional and personal life.

Report on the Certification Course

In the academic year 2018-19, to assist the students in shaping their professional life and to help the students for their further studies examination, we organised the **Certification Course on Basic English Grammar and Communication Skills** for B.Sc. students. The classes were taken for 3 months from June to August, which was proportionate to their odd semester. Since the aim is to enrich the students' skill to use the global language for his/her wellbeing, we set the time-table in such a way that a teacher has to focus each student's performance in the class. So among the 30 students, we made the two batches (15 students each) and 2 classes per batch in a week.

Report on the Certification Course

In the academic year 2018-19, to assist the students in shaping their professional life and to help the students for their further studies/examination, we organised the **Certification Course on Basic English Grammar and Communication Skills** for B.Com. Students. The classes were taken for 3 months from June to August, which was proportionate to their odd semester. Since the aim is to enrich the students' skill to use the global language for his/her wellbeing, we set the time-table in such a way that a teacher has to focus each student's performance in the class. So among the 30 students, we made the two batches (15 students each) and 2 classes per batch in a week.

Certificate course
Basic English Grammar and Communication Skills

2018-19

Outcome:

After completing this course, the students' benefits are as follows:

- Effective communication is fundamental for success in many aspects of life. Importance of language is a primary medium through which learning takes place in educational and everyday experiences.
- Basic objective of this certificate course is to gradually develop their LSRW- listening, speaking, reading and writing skills through the communicative approach of teaching and learning – a basic language understanding.
- It can also improve their vocabulary and grammar. This can help students apply for higher studies and lead to jobs as writer, editor, researcher etc.
- Through this, students strengthen their communication skills and become more proficient writers. In addition, this certificate reflects their skill set and provides credibility to potential employers.

Curriculum for Fabrication of Electrical Switch boards

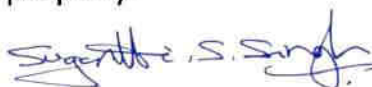

2019-2020

UNIT: 1

Analysis of fabrication procedure of a switch boards and collection of basic components such as switch, socket, LED indicator, wire. Preparing the wooden frame of desired size depending on the switches to be fixed.

UNIT: 2

After the board frame is ready, the wiring is done with proper electrical connections. The entire positive and the negative terminals of the switches and corresponding sockets are connected in series and are seen that they do not interfere with each other to prevent short circuit. An indicator lamp is connected in series as well. Fuses are always connected in series with the wire. The current flows through the circuit to protect the electrical appliances connected to the circuit. The grounding is made finally and a three pin plug is connected carefully. It is made sure that the connections are made properly.

Fabrication of Electrical Switch boards

2019-2020

Assessment Procedure:

- The switch board designed and fabricated by the students is submitted for assessment. The teacher in charge checks the fabricated board with AC input 220V and 50Hz. Based on the working of the fabricated boards certificates are awarded.
- To pass this certificate course a pass mark of 50% is required.
- Evaluation for skill practical for every student at each training session.
- Certificate is issued for all successfully passing students.
- In case of unsuccessful completion the students may seek another assessment test.

Fabrication of Electrical Switch boards

2019-2020

Outcome:

After completing this course, the students will be able to:

- Apply basic concepts of various electronic components.
- Perform manual soldering of the components.
- Perform inspection of the assembled board and soldered components.
- Demonstrate correct interaction techniques with teachers and co participants.
- Comply with the health and safety guidelines to maintain a safe laboratory.

ADD-ON COURSE/CERTIFICATE COURSE

2019-2020

NAME: SOLDERING & FABRICATION OF ELECTRICAL BOARDS

TIME DURATION: 30 HOURS

NUMBER OF STUDENTS ENROLLED: 30 STUDENTS

Sarada Vilas College
Krishnamurthypuram, Mysuru
Department of Physics

Curriculum for Soldering & Fabrication of Electrical boards

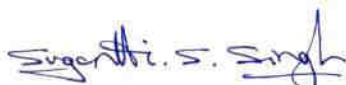

2019-2020

UNIT: 1

Identification of basic electronic components such as resistors, capacitors, inductors, PCB boards, IC's, transistor, pnp transistor, npn transistors LDR, LED, PN Diode, Zener Diode, DC motor, Battery, Battery caps, Reset Switch, Rainbow wire, Transformer, step down transformer, step up transformer, Voltage regulator, bread board, Thermistor, Buzzer etc..

UNIT: 2

After identification, the student is exposed to soldering procedure. Later, on completion of the circuit board the student is allowed to check the connectivity of components along with input and output voltage and current.

Soldering & Fabrication of Electrical boards

2019-2020

Assessment Procedure:

- At the end of the Add on course each students is given a practical test for one hour duration to fabricate a small electrical device.
- The device is checked by the teacher in charge and assessed for the same.
- To pass this certificate course a pass mark of 50% is required.
- Evaluation for skill practical for every student at each training session.
- Certificate is issued for all successfully passing students.
- In case of unsuccessful completion the students may seek another assessment test.

Report of Add-on course

Department of Physics

2019-2020

Add-on course title: **Soldering and Fabrication of electrical boards**

Duration and date: 30hrs and 21/12/2019

Teachers in charge: 1) Dhanushchandraguru H M

2) Naveen Kumar A R

No. of students: 30

The department of physics conducted an Add-on course titled **Soldering and Fabrication of electrical boards** for 30 hours, 30 students participated in this course. Two teachers were in charge of the Add-on course. The students were issued certificate after successful completion of this Add-on course.

Soldering & Fabrication of Electrical boards

2019-2020

Outcome:

After completing this course, the students will be able to:

- Apply basic concepts of various electronic components.
- Perform manual soldering of the components.
- Perform inspection of the assembled board and soldered components.
- Demonstrate correct interaction techniques with teachers and co participants.
- Comply with the health and safety guidelines to maintain a safe laboratory.

Add-on/Certificate course on 'Basic Mathematical Aptitude'

2019-20

Background

Almost all the Competitive examinations have one section of problems named 'Aptitude'. Further, basic calculations with numbers such as natural numbers and fractions and also basic logic and reasoning are part and parcel of every-day life. It is also to be noted that many students have aversion towards mathematics since childhood for various reasons. Keeping all these in mind, to help the students develop basic aptitude as well as numeracy skill, this certificate course has been designed. This course not just helps the students for their competitive examinations, but also their day to day life.

Eligibility for admission into the course and structure

Any final year B.Sc/B.Com student studying in Sarada Vilas College during 2019-20 is eligible for this course. The course is of 30 hours duration (distributed over two or three months).

Eligibility for certificate

A candidate fulfilling all the below mentioned criteria are eligible for the certificate.

Attendance: 75 %

Overall score: 50%

Assessment pattern

There will be two formative assessments C1 and C2 each for 20 marks.

C1 – Test (20 Marks)

C2 – Assignment or Quiz (20 Marks)

A final summative assessment C3 will be for 60 marks.

(Hence a candidate with attendance greater than or equal to 75% will be considered pass only if he scores 50 marks out of 100)

Grading

Distinction – for scores greater than or equal to 80%

First Class – For scores greater than or equal to 60% and less than 80%

Pass Class – Greater than or equal to 50% and less than 60%

Not cleared – Less than 50%

Course outcomes

At the end of this course, a student will be able to

1. Reproduce the strategies for performing operations (all the four) among integers and fractions.
2. Recall the different types of fractions along with examples.
3. Solve some daily life problems related to fractions and integers.
4. Analyze logically given situation and solve the problem thereby.
5. Solve problems related to direction, relationships among numbers and geometrical figures.
6. Recall definitions of basic terminologies related to banking such as loan, rate of interest, simple and compound interests, principal amount etc.
7. To solve some daily life problems related to loans and rate of interests.

CURRICULUM FOR MUSHROOM CULTIVATION

30 Hours

Unit-1: Introduction; Characteristics of edible mushrooms & their nutritional and medicinal value; Poisonous mushrooms and their characteristics; Types of edible mushrooms & their cultivation - *Volvariella volvacea*, *Pleurotus citrinopileatus*, *Agaricus bisporus*, *Ganoderma lucidum*, & *Lentinula edodes*; Acquaintance with infrastructure, equipments and machineries required in the mushroom cultivation process. Pure culture: Medium, sterilization, preparation of spawn, Genetic Improvement of Mushrooms, multiplication.

Unit-2: Mushroom bed preparation - paddy straw, sugarcane trash, maize straw, banana leaves. Problems in Mushroom cultivation. Factors affecting the mushroom bed preparation - low cost technology, composting technology in mushroom production; Storage and nutrition- Short-term storage (Refrigeration - upto 24 hours); Long term storage (canning, pickels, papads), drying, storage in salt solutions. Production of vermicompost from spent mushroom beds. Nutritional value of mushrooms and the mushroom recipes; Research Centres - National level and Regional level; Cost benefit ratio - Marketing in India and abroad, Export Value.

MUSHROOM CULTIVATION

Outcome:

On completion of this course, the students will be able to

- To enable the students to identify the edible and poisonous mushrooms.
- To make the student familiar with mushroom cultivation for commercial exploitation.
- To make the students know about the edible mushrooms used as- food, medicine and economic value for sustainable development.
- To generate interest amongst the students to know the importance of mushroom in day today life.
- To help the students to learn a means of self-employment and income generation.

**REPORT ON
CERTIFICATE COURSE ON "VERMICULTURE TECHNOLOGY"**

The department of Zoology conducted add on certificate course titled "VERMICULTURE TECHNOLOGY" with duration of 30 hours with strength of 40 students. The Vermiculture technology is the study of cultivation of earthworms for the purpose of using them to decompose organic wastes into nutrient-rich fertilizers. Students were trained on how to maintain a small vermicomposting bin as a simple method for converting the kitchen waste. The classes were held on every Saturday. Ms. Bindushree was the coordinator of the course. The students were issued certificates after successful completion.

Report on the Certification Course

In the academic year 2019-20, to assist the students in shaping their professional life and to help the students for their further studies/examination, we organised the **Certification Course on Basic English Grammar and Communication Skills** for B.Com. students. The classes were taken for 3 months from June to August, which was proportionate to their odd semester. Since the aim is to enrich the students' skill to use the global language for his/her wellbeing, we set the time-table in such a way that a teacher has to focus each student's performance in the class. So among the 30 students, we made the two batches (15 students each) and 2 classes per batch in a week.

Certificate course
Basic English Grammar and Communication Skills

2019-20

Outcome:

After completing this course, the students' benefits are as follows:

- Effective communication is fundamental for success in many aspects of life. Importance of language is a primary medium through which learning takes place in educational and everyday experiences.
- Basic objective of this certificate course is to gradually develop their LSRW- listening, speaking, reading and writing skills through the communicative approach of teaching and learning – a basic language understanding.
- It can also improve their vocabulary and grammar. This can help students apply for higher studies and lead to jobs as writer, editor, researcher etc.
- Through this, students strengthen their communication skills and become more proficient writers. In addition, this certificate reflects their skill set and provides credibility to potential employers.

Curriculum for Fabrication of Electrical Switch boards

2021-22

UNIT: 1

Analysis of fabrication procedure of a switch boards and collection of basic components such as switch, socket, LED indicator, wire. Preparing the wooden frame of desired size depending on the switches to be fixed.

UNIT: 2

After the board frame is ready, the wiring is done with proper electrical connections. The entire positive and the negative terminals of the switches and corresponding sockets are connected in series and are seen that they do not interfere with each other to prevent short circuit. An indicator lamp is connected in series as well. Fuses are always connected in series with the wire. The current flows through the circuit to protect the electrical appliances connected to the circuit. The grounding is made finally and a three pin plug is connected carefully. It is made sure that the connections are made properly.

Fabrication of Electrical Switch boards

2021-22

Assessment Procedure:

- The switch board designed and fabricated by the students is submitted for assessment. The teacher in charge checks the fabricated board with AC input 220V and 50Hz. Based on the working of the fabricated boards certificates are awarded.
- To pass this certificate course a pass mark of 50% is required.
- Evaluation for skill practical for every student at each training session.
- Certificate is issued for all successfully passing students.
- In case of unsuccessful completion the students may seek another assessment test.

Fabrication of Electrical Switch boards

2021-22

Outcome:

After completing this course, the students will be able to:

- Apply basic concepts of various electronic components.
- Perform manual soldering of the components.
- Perform inspection of the assembled board and soldered components.
- Demonstrate correct interaction techniques with teachers and co participants.
- Comply with the health and safety guidelines to maintain a safe laboratory.

Curriculum for Soldering & Fabrication of Electrical boards

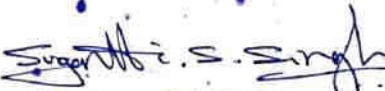

2021-22

UNIT: 1

Identification of basic electronic components such as resistors, capacitors, inductors, PCB boards, IC's, transistor, pnp transistor, npn transistors LDR, LED, PN Diode, Zener Diode, DC motor, Battery, Battery caps, Reset Switch, Rainbow wire, Transformer, step down transformer, step up transformer, Voltage regulator, bread board, Thermistor, Buzzer etc..

UNIT: 2

After identification, the student is exposed to soldering procedure. Later, on completion of the circuit board the student is allowed to check the connectivity of components along with input and output voltage and current.

Soldering & Fabrication of Electrical boards

2021-22

Assessment Procedure:

- At the end of the Add on course each students is given a practical test for one hour duration to fabricate a small electrical device.
- The device is checked by the teacher in charge and assessed for the same.
- To pass this certificate course a pass mark of 50% is required.
- Evaluation for skill practical for every student at each training session.
- Certificate is issued for all successfully passing students.
- In case of unsuccessful completion the students may seek another assessment test.

Report of Add-on course

Department of Physics

2021-22

Add-on course title: **Soldering and Fabrication of electrical boards**

Duration and date: 30hrs and 4/6/2022

Teachers in charge: 1) Dhanushchandraguru H M

2) Naveen Kumar A R

No. of students: 30

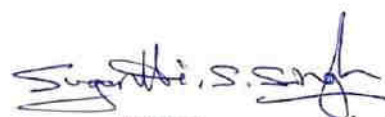

The department of physics conducted an Add-on course titled **Soldering and Fabrication of electrical boards** for 30 hours, 30 students participated in this course. Two teachers were in charge of the Add-on course. The students were issued certificate after successful completion of this Add-on course.

Soldering & Fabrication of Electrical boards

2021-22

Outcome:

After completing this course, the students will be able to:

- Apply basic concepts of various electronic components.
- Perform manual soldering of the components.
- Perform inspection of the assembled board and soldered components.
- Demonstrate correct interaction techniques with teachers and co participants.
- Comply with the health and safety guidelines to maintain a safe laboratory.

Add-on/Certificate course on 'Mathematical Aptitude for competitive examinations'

2020-21

Background

Almost all the Competitive examinations have one section of problems named 'Aptitude'. Further, basic calculations with numbers such as natural numbers and fractions and also basic logic and reasoning are part and parcel of every-day life. It is also to be noted that many students have aversion towards mathematics since childhood for various reasons. Keeping all these in mind, to help the students develop basic aptitude as well as numeracy skill, this certificate course has been designed. This course not just helps the students for their competitive examinations, but also their day to day life.

Eligibility for admission into the course and structure

Any final year B.Sc/B.Com student studying in Sarada Vilas College during 2020-21 is eligible for this course. The course is of 30 hours duration (distributed over two or three months).

Eligibility for certificate

A candidate fulfilling all the below mentioned criteria are eligible for the certificate.

Attendance: 75 %

Overall score: 50%

Assessment pattern

There will be two formative assessments C1 and C2 each for 20 marks.

C1 – Test (20 Marks)

C2 – Assignment or Quiz (20 Marks)

A final summative assessment C3 will be for 60 marks.

(Hence a candidate with attendance greater than or equal to 75% will be considered pass only if he scores 50 marks out of 100)

Grading

Distinction – for scores greater than or equal to 80%

First Class – For scores greater than or equal to 60% and less than 80%

Pass Class – Greater than or equal to 50% and less than 60%

Not cleared – Less than 50%

Course outcomes

At the end of this course, a student will be able to

1. Recall the definitions of HCF and LCM and use different kinds of strategies to find the LCM and HCF of given set of numbers.
2. Apply the strategies learned to solve some daily life problems related to HCF and LCM.
3. To solve problems on Time and Distance.
4. To convert units from one system to other.
5. Recall definitions of basic terminologies related to banking such as loan, rate of interest, simple and compound interests, principal amount etc.
6. To solve some daily life problems related to loans and rate of interests.

SYLLABUS**

Duration:30 hours

UNIT – I

Vermitechnology- Definition, history, growth and development in other countries & India, significance.

UNIT – II

Vermiculture – definition, scope and importance; common species for culture; Environmental parameters; culture methods – wormery – breeding techniques; indoor and out door cultures - monoculture and polyculture – merits and demerits.

UNIT – III

Vermicomposting of wastes in field pits,ground heaps, tank method,roof shed method,top fed windrows, wedges & bin method,harvesting the compost, storage, Vermiwash-Preparation and application

UNIT – IV

Applications of vermiculture – Vermiculture Bio-technology, vermicomposting, use of vermicastings in organic farming/horticulture.

UNIT – V

Future perspectives – Predator / pathogen control in wormeries; Potentials and constraints for vermiculture in India. Visit to relevant Labs/Field Visits.

**REPORT ON
CERTIFICATE COURSE ON "VERMICULTURE TECHNOLOGY"**

The department of Zoology conducted add on certificate course titled "VERMICULTURE TECHNOLOGY" with duration of 30 hours with strength of 38 students. The Vermiculture technology is the study of cultivation of earthworms for the purpose of using them to decompose organic wastes into nutrient-rich fertilizers. Students were trained on how to maintain a small vermicomposting bin as a simple method for converting the kitchen waste. The classes were held on every Saturday. Ms. Bindushree was the coordinator of the course. The students were issued certificates after successful completion.

COURSE OUTCOME

- The course is structured at the basic level for the benefit of the students coming from different discipline having broad scope for employability.
- In general soil earthworms, their characteristic features, occurrence, their influence on soil fertility and solid waste management are included.
- Vermicomposting technology broadly followed at the global level and some Indigenous methods, role of microbes in increasing the soil fertility by the action of earthworms, their advantages and limitations dealt.
- Role of microbes in worms and in decomposition is discussed.
- Vermiculture products and their benefits in agriculture practice, economics of vermiculture technology along with the practical difficulties are included.
- Students will be trained on how to maintain a small vermicompost bin as a simple method for converting the Kitchen waste.

Subject: Proposal for College Tie-up with Tally Education

Respected Sir/Madam,

As per the discussion we had with Mr. SATYANARAYANA sir, Principal here with we have attached the proposal with his due consent.

Thank you for receiving the proposal.

Tally Education Private Limited (TEPL), the educational division of Tally Solutions, India's leading business management software product company, proposes to collaborate with your esteemed institute to train students on Tally.ERP 9.

Tally Institute of Learning (TILs) are network of Training centres of TEPL and the authorized centre of Mysore – SHRI SAINIK GURUKULA.

We solicit to your support for initiating the Training Programme at the earliest convenient date.

Please feel free to contact undersigned for any other information or clarification required.

Proposal for Sharadha Vilas First Grade College, Mysore:

We share the common vision of empowering the students by imparting industry relevant skill sets and increasing their employability. The challenge for any academic institution remains how to make their students "job ready" on graduation. To address this issue Tally has come up with a unique proposition wherein we train the students at the college premises, thereby making quality training available without any intervention, at your place at your pace. The training is also subsidized to make it more inclusive to the mainstream education.

Proposed Terms and Conditions:

1. Tally to provide Tally Verifiable Certificate (minimum 70% attendance needed)
2. Nominal training fees will be applicable for a minimum number of 40 students.
Note: College may charge additional fee from the students towards lab maintenance & other administration charges.
3. Duration of the program 40 Hours (Tally ACE)
4. Training to be imparted at college campus, using college infrastructure. (Schedule of training to be worked out with college.)
5. Career Orientation/ Guidance Program to be organized.

Tally ERP Classes-Report

The Department of Commerce and Business administration has arranged for the Tally ERP Certification courses in association with the Shri Sainik Gurukula-An Authorised Tally training institute in Mysuru. The college had a tie-up with the institute to conduct Tally ERP 9 Classes in the college premises. Tally training was planned to provide for both for Students as well as Staff members of the institutions.

In the first batch the training program was conducted to students. The Tally ERP inauguration program was organised on 17-01-2022. Initially more than 50 students showed interest for the tally ERP 9 Classes and the number was reduced to 30 students as per our available computer lab Facility. From each students Rs.2,500 was collected towards the Tally ERP fees and deposited to Institute account and later it was paid Shri Sainik Gurukula-An Authorised Tally training institute in Mysuru.

Totally 40 classes were conducted (15 hrs theory classes and 25 hrs Practical classes) for the I Batch Students. The exams were conducted on 12-03-2022 for 30 Students in 3 Different batches of 10 students each. The exams were conducted in the computer science department of Sarada Vilas College. The list of students whom have taken examination are enclosed.

The department of commerce and business administration has also arranged for the training program for the staff members of sister institute of Sarada Vilas Educational Institutions. The meeting of staffs were conducted on 14-03-2022 for the staff members of the Sarada Vilas Educational Institutions to know the requirement of the staffs. The training program was started from 15-03-2022 from 3.30PM-5.00PM every day for 8 days. This is considered as II batch of training program of Tally ERP.

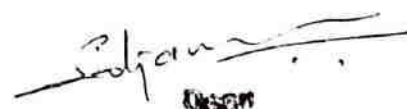

List of participant's received from sister institutions were 22. The attendance to the class was not encouraging due to official work at their institutions like examination duties, NAAC work etc,. However after discussing with the Hon. Secretary sir it was decided to select one &/or two from each of the sister institution to train them separately at their convince, specially Saturday, Sunday or any day in which the work pressure is less at their workplace. The same has to be discussed with Mr. Bhaskar, Shri Sainik Gurukula-An Authorised Tally training institute in Mysuru.

The distribution of certificates to the students who pass the examination has to done with a colorful function.

Outcomes of Tally ERP

- Tally is the world's most powerful concurrent Multi-Lingual Integrated Business accounting software. Users can create their own names for their accounting data in their own desired language.
- Creation of invoices with single items, multiple items, multiple tax types, and even multiple currencies.
- Invoices with multiple currencies can be printed with the value breakups of the transactions in terms of the different currencies.
- Tally enables its users to work with multiple companies accounts simultaneously and update information in real-time as soon as voucher entries are made.
- Tally accounting software can flawlessly connect with various Microsoft applications.
- Small and medium enterprises (SME) need ERP software to manage three critical functions – accounting, inventory, and compliance, as it comes with One Stop Solution for the same.
- Tally provides comprehensive solutions revolving around accounting principles, inventory and data integrity.
- Tally software comes with easy to use interface, thereby making it simple to operate.
- With Tally.ERP 9, crucial decisions can be taken by looking at critical financial reports which are available on the click of a button.
- A single connection can support multiple users.
- ERP9 can be easily used in conjunction with the Internet making it possible to publish global financial reports.
- ERP 9 seamlessly allows handling accounting, inventory, and compliance within a single software as it becomes easier for business owners
- Users can start recording transactions and creating invoices within minutes of installation.
- The software is so reliable and robust that even on occasions of power failure or machine shut down while under working condition, the data does not get affected as it is safely stored in the Tally database.
- With Tally.ERP 9, Tax Consultants and Auditors can remotely perform audit without the hassle of transferring the data and can leave their comments on vouchers for business owners to take further actions.
- ERP9 provides flexibility to create masters on the go because very often businesses need to create different types of vouchers.

Report on the Certification Course

In the academic year 2021-22, to assist the students in shaping their professional life and to help the students for their further studies/examination, we organised the **Certification Course on Basic English Grammar and Communication Skills** for final year BSc students. The classes were engaged for 3 months from June to August, which was proportionate to their fifth semester. Since the aim is to enrich a student's ability to use the global language for his/her wellbeing, we set the time-table in such a way that a teacher has to focus each student's performance in the class. Totally there are 28 students registered their names for the course, among them we made the two batches (14 students each) and 2 classes per batch in a week were taken.

Basic English Grammar and Communication Skills
2021 - 22

Outcome:

After completing this course, the students' benefits are as follows:

Effective communication is fundamental for the success in many aspects of life. Importance of language is a primary medium through which learning takes place in educational and everyday experiences.

The basic objective of this certificate course is to gradually develop their LSRW- listening, speaking, reading and writing skills through the communicative approach of teaching and learning – a basic language understanding. It can also improve their vocabulary and grammar. This can help students apply for higher studies and lead to jobs as writer, editor, researcher etc. Through this, students strengthen their communication skills and become more proficient writers. In addition, this certificate reflects their skill set and provides credibility to potential employers.
