BEST PRACTICES

Best Practice 1: Reach and Teach the Less privileged (page No. 4 to 334)

Best Practice 2: Special Lecture programmes, Seminars, Webinars and Workshops (page No. 335 to 488)

<u>Index</u>

Sl.No.	Particulars	Page No.
1	Bridge Course	4-23
2	Remedial classes for Slow Learners	24- 44
3	Field Visits- Kukkarahalli lake, botanical garden, veterinary hospital, zoological garden, KSPCB & industries	45-297
4	Free Coaching	298-314
5	Career Guidance	315-324
6	List of passed out students who has entered Higher education	325-334
7	Special lecture programmes, seminars, webinars and workshops	335-488
/	Special lecture arranged: Pathological significance of seed technology	335-339
	Special lecture programme on "Genetically modified crops" by Dr. Vasanthkumar Timkapur	340-341
	Special lecture on Transgenic plants and its applications	342
	One day State level workshop on "International Financial Reporting Standards"	343-345
	Special Lecture on "SAGA OF PLANTS ON EARTH"	346-347
	Webinar on "Role of Entrepreneurs' in Indian Economy- Present scenario"	348-349
	Is Criminality inherited? Resource Person: Dr.S.N.Hegde, Former professor and Chairman, Dept of Studies in Zoology - University of Mysore, Mysore - Dept of Zoology	350-351
	Fuel Chemistry- An insight (Resource Person : Dr. Vinod T.P , Associate Professsor , BOS-Chemistry , Christ Deemed to be University ,Bangalore) - Dept of Chemistry	352
	Science and Commerce in Literature	353-355
	Restoration of forest ecosystem- means and ways	356-357
	Yoga and its importance	358
	Technical Writing using Latex	359-360
	Vyaktitva Nirmanadalli Saahityada Patra	361-363

Lecture on Deforesation and Aforestation by Miss.Anusha.P , Assistant Conservator of Forest, Mysore - Dept of Environmental Studies	364-365
Forest Degradation in the western ghats and restoration strategies Dr.U.N.Chandrashekar, Scienctific advisor and senior principle scientist, kerala forest research institute Dept of Botony	366-367
Indigenous lipid mediaters in inflammation and Cancer: Dr.K.Sandeep Prabhu, Head: Dept of Veternary and Bio-Medical Sciences, The pensivennia State University Park, U.S.A - Dept of Chemistry	368-376
Minding the Mind - Tips and tricks to crack civil services exam	377-378
Road ahead for graduation of today - Dr.M.Tirumalesh, Motivational Speaker, Joint Director, Dept of Agriculture, Govt of KarnatakaDept of Commerce and Business Administration	379-381
transition into the corporate world -Resource Person: Mr.Ananth Ravi,President (Retd), Reliance Industries, Board Member – Sahyadri Education Group- Dept of Commerce and Business Administration	382-384
Importance and learning from Sahithya for ones Life - Resource Person: Dr.M.Ramakrishna, Assistant Professor, Kannada Dept, Bharathi College, Mandya- Dept of Commerce and Business Administration	385-387
Recent trends and oppportunities in life sciences :Resource Person : Dr.Naveen Sharma : head research and development , Nusiveedu Seeds , Hydrabad - Dept of Life Sciences	388-390
Career options in Bio-Technology : Dr.Umesh - DOS:Bio-Technology , University of Mysore , Manasagangothri, Mysore - Dept of Bio- Technology	391-396
Importance of cost leadership to succeed at workplace and higher market share - Resource Person: Prof J S Kiran, DEAN, GEMS B School, Mysore- ept of Commerce and Business Administration	397-401
Auditing - a critical tool for making managerial deicisons effective - Resource Person: Sri. Siddhartha Chandra, Senior Associate, KPMG – Global Delivery Centre Pvt Ltd Dept of Commerce and Business Administration	402-404
Nano-Science and Nano-Technology : Speaker : Dr.N.R.Pawar - HOD, Physics - Arts,Commerce and Science College , Maharani college - Dept of Physics	405-409
Effect of Covid-19 On patients with Diabetes by Dr.Mallika.B, MBBS, DCH, MD, Senior Medical Officer, Dist Hospital, Mysuru - Dept of Zoology	410-411
Special Lecture in Library: Importance of Books and effective utilisation of Books	412.00
International animal rights day celebrations - Voice of animals	413-440
Human Resource Development and Management Cell (HRDMC) Orientation Program on "Functional Competence of Teachers"	441- 416
Special lecture on "Life cycle of Stars"	417-419

Special lecture in Kannada : Subject : Namma alatheyannu meeralaada devaru : Literature of Shivarama Kaaranta . Speaker : Dr.Bette Gowda, Principal - Sarkaarai Mahila Prathama Darje College, Mysore - Dept of Kannada	420-423
National Webinar on Mathematics and Ramanujan by Dr.C.S.Yogananda, Former Professor, JSS Science and Technology University, Mysuru - Host Sarada Vilas College, in colaboration with Sri.H.D.Devegowda Govt FG College, Paduvalahippe, Holenarsipura, Hassan District - Dept of Mathematics	424-428
2 days webinor on what after B.sc	429-430
One day Workshop on "Mushroom cultivation"	431-437
webinor on what after M.sc chemistry	438-439
One day workshop on "Application of statistical tools in Social Science Research"	440-445
A webinar on "Bio based sustainable polymer blends for medical applications"	446-448
webinor on strategies to crack state level competitive examination	449
One earth only - A series of programs of 5 days	450-468
webinar on "Higher education and job opportunities in India and abroad after graduation"	469-471
Special lecture programme on 'Entrepreneurship in GST practitioners programme"	472-487
A special lecture on "Intellectual Property Rights"	488

2. Remedial classes for Slow Learners

Remedial Class

Year and Semester: Falel. 2018-2021

Topics Number Hudy .

(PUSHPA.K).

Date: 0,2/09/2021

Brief description:

Time: 1-1.45 p.m.

Explanation of certain concepts like G.C.D congruences and simultaneous congruencead problems

REPORT ON VISIT TO THE DEPARTMENT OF HORTICULTURE, KUKKARAHALLI DIVISION MYSURU.

PURPOSE OF VISIT: TO STUDY PLANT PROPAGATION TECHNIQUES.

DATE: 23-12-2021

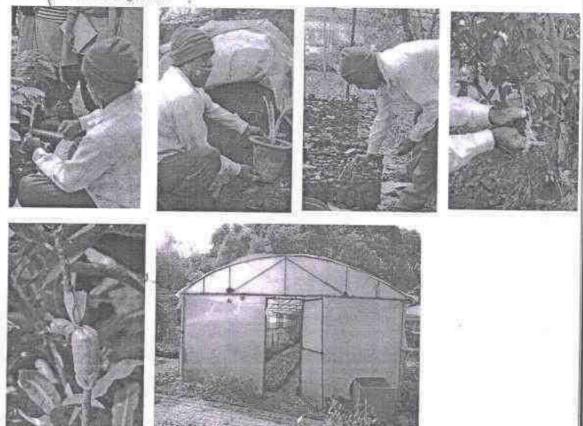

Com

A visit to Department of Horticulture, Kukkarahalli Division, Mysuru on 23th December 2021 was organized by Department of Botany for 5th semester students to study plant propagation techniques and nursery management methods which is a part their curriculum prescribed by the University of Mysore.

We visited the department along with 38 students of 5th semester in the afternoon. The students were guided by Mr. Prakash, Assistant Director, Department of Horticulture, Govt. of Karnataka, He demonstrated various kinds of plant propagation techniques like, cutting, graftings, and gooty and also explained the methods of nursery management with much enthusiasm which helped the students to gain more knowledge in the subject.

Students also observed different kinds of plants propagated by different methods growing in the polyhouse, and also learned potting, transplantation techniques, soil bed preparation with special reference to coconut and areca nut. He also explained cultivation techniques and fertilizers used for different horticulture crops and their importance.

The demonstration and explanation was much informative, the visit also helped the student to gain more practical knowledge pertaining to the subject, especially to the students with agricultural background.

REPORT ON FIELD YISIT

DATE: 21/01/2022

PLACE VISITED: GOVERNMENT VETERNERY HOSPITAL, MYSURU

CONCLUSION

Field trips are useful as they proffer students with the necessary experience that cannot be imitated within the laboratory setting. We affirmed that, this trip to Government Veterinary hospital, Ashokapuram, Mysuru was tremendously optimistic experience for us which helped us to know about Artificial insemination in cattle with more practical approach. The aim of learning the Modern artificial technologies involved in reproduction of cattle was successfully accomplished with enthusiasm among the students.

This Field trip also helped us to know about the behavior of cattle during their oestrous period and the level of artificial injected hormone impact on them.

Fauna of the College – Report on fauna found in the campus

SARADA VILAS COLLEGE KRISHNAMURTHYPURAM, MYSURU FAUNA OF THE COLLEGE

Commonly available fauna in the college premises were identified and an inventory was created by the department of Zoology between 12th to 14th May 2022. All the zoology students actively participated while learning behaviors and names of birds, insects and reptiles. The students understood the population patters of various organisms and breeding patters.

All participants were headed by the department faculties Mrs. Shakunthala and Ms. Gowri Hoysala. Various books like Helms field guide for bird identification and butterflies of Indian subcontinents by the nestery krob were referred for detailed identification.

Students were very passionate to creep into deep crevices and dig into the soil to find various insects for identification. Birding was usually conducted once in the morning by 9am and again in the evening by 4pm for consecutive 3 days. All the names of identified fauna was jotted and documented.

In total 37 bird species, 62 arthropod species, 11 reptile species and 7 mammalian species were identified in the college premises. The activity became a source to create awareness among the students about the depleting species and necessity actions that could easily be taken to save them. The students were also enlightened about how each specie is important in maintaining the natural cycles.

Field Visit Report

On the part of VI semester Zoology curriculum (CBCS) of University of Mysore, we took VI semester CBZ students to field visit. On 18th August 2021, we visited the Karnataka State Pollution Control Board, Mysuru to learn about Pollution status of Mysuru city.

We would like to thank Dr. M. Devika, the Principal of Sarada Vilas College for granting permission and for overall support.

We would like to express our sincere gratitude to Mrs. Kavitha, Scientific Officer and Mrs. Vanitha S. A. Assistant Scientific Officer, Karnataka State Pollution Control Board, Mysuru for their guidance and valuable support.

Our primary interest was to learn more about the causes of Air pollution and current status, Pollution level and type of pollutants. We have observed and prepared a report based the Air Quality data collected by KSPCB, Mysuru.

Sarada Vilas College Mysore - 579 086

SARADA VILAS COLLEGE KRISHNAMURTHYPURAM, MYSURU FIELD VISIT REPORT

On the part of II semester curriculum, we took all second semester CBZ students to field visit. On 5th August 2021, we visited the Kukkarahalli Lake, Mysuru to learn about different bird species present in that lake. We would like to thank Dr.M. Devika, the Principal of Sarada Vilas College for granting permission and for overall support.

Our primary interest was to learn more about Bird fauna of Kukkarahalli Lake. We have observed and prepared a checklist of birds in that Lake.

Kukkarahalli Lake is located in the heart of Mysuru city, adjoins Manasa gangotri campus (University of Mysore), the kalamandir and the Central Food Technological Research Institute (CFTRI) campus.

Mummadi Krishnaraja wodeyar (1794-1868) of the Mysore dynasty was responsible for getting the Lake created in the year 1864, to provide water for irrigation to about 10,000 acre of land outside the city. The Lake also used to be a source of water supply to the city of Mysuru but over the years, sewage and excessive land encroachment and blockage of water flow source almost led to the eutrophication of the Lake. The University of Mysore and citizen forum of Mysore continued their efforts to preserve the Lake by implementing several remedial measures.

There is a 4.5 kilometer walkway on periphery of the Lake with the shattered stone benches for visitors to sit, relax and enjoy the scenic beauty of the Lake. Algal blooms are formed in the Lake due to excess growth of planktonic algae as a result of water pollution. Surface area of the Lake is 150 acres. This Lakeconstitutes a part of University of Mysore in a total area of 90 acres of which the water spread area itself accounts for 60% of a Lake that is 55 acres and rest in fore sure.

There is a channel of about 2.5 kilometers length which brings water into the Lake a small butterfly park and facilities for bird watching and flora study is provided for the public. Afewislands have been created in the Lake and this provides safe place for birds and for others features to roost and nest. Trees and bushes are present along with naturally occurring vegetation. Bougainvillea creepers are seen which gives shade to the visitors. Aquaculture can be seen in the Lake.

A report on Institutution-Industry interaction programme conducted for VI semester

A visit to Stove Kraft Limited and Metro cash and carry India pvt Ltd. Bangalore for VI semester B.com and BBA Students-2022 with Faculty In-Charge-Mr. Mallikarjunaradya HM, Mr. Rajkishore SN and Mrs. Sowmya MA. On receiving the letter of permission from Principal, Stove Kraft Limited and Metro cash and carry India pvt Ltd. Bangalore for Industrial visit, 48 Students along with the three faculties Mr.Mallikarjunaradya H M, Mr. Rajkishore S N and Mrs. Sowmya M A went to industrial Visit on 26th July 2022.

On 26th July 2022, all students and faculty members were assembled in the college premises at 6:00 am and with all the good wishes by Prof Satynarayana, Dean, Dept of Commerce & Business Administration SVC, the bus left the College at 6:30 am and the break was at Kengal Anjaneya Temple, near Chennapattana at 8:30am for Breakfast & coffee and then headed towards Stove Kraft Limited, Bidadi Industrial area, Bangalore. Around 10:30 am we reached the industry. The production manager received us at the entrance and along with the verification of the permission letter he allowed all of us into the organization.

Then we had the interaction with the office management staff. The students were divided into 5 groups (10 students in each group). These groups were made to make the convenient explanation of the industrial work. Later the manager along with the other one subordinate took the students inside the cooker manufacturing plant. At first, they explained regarding raw materials and how they are used to manufacture pigeon cookers. The students were more excited to know the process of the manufacturing and safety measures they take and how they manage required output every week. Finally they allowed us to scrap handling area and explained about reuse of it. The overall visit was very informative with very good interaction by the manager and other employees at plant. The students' interaction came to an end at 12:30 PM; we departed from the Stove Kraft Limited.

Then we moved towards A2B Restaurant for lunch.

After lunch, the bus left the place, heading towards Metro cash and carry India pvt Ltd. Rajarajeshwari Nagar, Bangalore.

We reached at 2:00 pm and manager received us and gave introduction about the retail output and we split students into two groups (25 students in each group) one by one they went studied regarding the purchase area and learnt about the purchases i.e.. Where they purchase? What quality products they purchase? How they test it? How they manage the required supply? And so on...

Then we moved to the sales area, the manager explained about rack maintenance, cleaning, safety measures, lifting of products safely and how they get orders and how they supply them to consumers. The overall interaction was very good and informative.

We departed from the place at 5:30 pm.

Evening around 7 pm we visited Shri Aprameya Swamy Temple, Malluru for darshan (Ambegalu Krishna temple, a historical temple belongs to Chalukya's times) and the refreshment break was taken. By 8:30pm bus reached Mysore and students were safely sent back from the college campus. The Industrial Visit was successfully concluded.

Industrial Visit Report

An visit to Klens Peks Pvt. Ltd. Gejjalagere, Mandya and Pushpak Products India Pvt Ltd Bangalore
For First M.Com Students – 2022
Faculty In-Charge – Ms. Arpitha K & Mrs. Pragathi

On receiving the letter of permission from Principal, SVC and Klens Peks Pvt. Ltd. Gejjalagere, Mandya and Pushpak Product India Pvt Ltd Bangalore for Industrial tour, 44 students along with the two faculty in charge Ms. Arpitha K and Mrs Pragathi went an industrial visit on 12 May 2022.

On 12th May 2022, all students of first M.Com and faculty members were assembled in the college premises at 7:30 am and with all the good wishes by Prof.Satynarayana, Dean, Dept of Commerce and Dr. Jyothis A.N., Assistant Professor, the bus left the College at 8:00 am and the first break was at Srirangapatna at 9:00am nearby to river side where all the students had breakfast and packed back by 09:45am and headed towards Klens Peks Pvt. Ltd., Mandya. Around 10:30 am we reached the factory. The production manager received us at the entrance and along with the verification of the permission letter, he allowed all of us into the organization.

Then we had the interaction between the office management peopie. The students were divided as 5 groups (9 students in each group). These groups are made to make the convenient explanation of the industrial work. Later the manager along with the other two subordinates took the students inside the plant. At first, they explain the major source of the raw materials and where it comes from and they said that major portion of the raw materials comes from the Arab countries. The raw material will be supplied to the plants. Where the further processing will be done. The students were more enthusiastic to know the process of how this raw material will be converted into finished goods.

In the second phase the students were exposed to the area where the raw material was converted into the plastic thread, which are called as a weaving and bobbins area, these raw materials were melted and made into a sheets and each sheets based on the requirement of customers and cut into a thread and they were made into a bobbins.

Later on, these threads are routed into the machinery where the machinery started netting the plastic bags. So from this particular manufacturing process we saw the conversion of the raw plastic into the plastic bags so where the majority of the production was done. They manufactured two kinds of plastics bags, one is an ordinary plastic bag which is used in storage of the regular product and the other one is the laminated plastic bags. The laminated plastic bags are used in storage purpose of the food grains or any other materials which are more sensitive to moisture.

later on the students were moved to the other unit where the major production was belonged to the tarpaulins and the other big plastic wrappers. This particular unit has different variations of the plastic manufacturing areas depending on the consumer needs, they were majorly focusing on the manufacturing of the plastic tarpaulins which majorly used in the construction areas and also the agriculture area.

Later on the students move to the other plant where the plastic were processed and made into a plastic food wraps and also they make the oil plastic covers. This particular plant was majorly dealing with the production of the plastic covers and the bags which is used in the food processing industries. Hence, there was a high maintenance of the hygiene were observed. The students were more exposed to know the cost of the machinery and how they invest on the new Machineries one most appropriate thing the students were focused and they observed in the organization was that as the company is dealing with the plastics, utilization of high technology based machineries were used to maintain the hygiene & safety of the people. Then students were interacted with the manager, and asked about the capital structure, Who is the owner of the company and how the soul entrepreneurship has grown into 7 units. The overall visit was very informative with very good interaction by the manager and other employees at plant. With tea and snacks to the students interaction came to an end. At 01:00PM we departed from the Klens Peks Pvt. Ltd. Mandya.

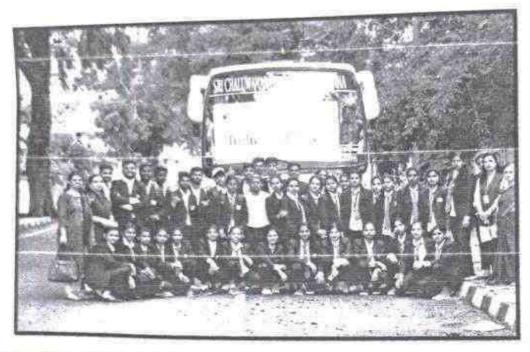

The lunch was packed in our vehicle, later around 02:30pm lunch break was given in channapattana at herbal park belongs to the dept. of horticulture facilitated us to have our lunch in their park, which is also one of tourist visiting place to see verities of herbal plants.

After lunch, the bus left channapatna, heading towards Bidadi. We reached Pushpak products India Pvt. Ltd., Bidadi, Bangalore at 4:00pm and manager received us and gave introduction about the factory and we split students into two groups (25 students in each group). First group went to assembling unit and second group went to the spare part manufacturing unit where the company manufactures spare parts for ISRO. Then these two groups were interchanged and visited the factory. Later the students had discussion with the manager. The visit come to an end at 5:30 pm.

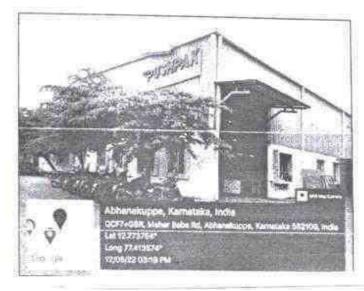

The unit was uplifted by the ministry of small scale industries (MSME). The Pushpak products India Pvt. Ltd., was mainly manufacturing the products relating to the relating to office furniture's. They are also the major supplier for all the Govt. organizations.

The students were more amazed to see the usage of technology in cutting and wilding process. The students showed up more enthusiasm in knowing the how the processes are divided and how costing at each stage are added. The students were also showed new machineries that have been used in this area. The students were given spend off with tea/coffee and snacks by the company. The students left the campus at 5:30pm with much satisfied and informative session.

Evening around 6:30 pm the refreshment break was taken in Ramanagara, the students enjoyed sipping juice and snacks. They also visited Ambegalu Krishna temple, a historical temple belongs to Chalukya's times. By 8:30pm bus reached Mysuru and students were safely sent back from the college campus and the Industrial Visit was successfully concluded.

The Principal

Mysore Ayurvedic Medical College

Mysore.

Sir.

Sub: Permission to visit medicinal herb garden

The University of Mysore has prescribed the fifth semester Botany students of B.Sc., course to visit a medicinal herb garden to update their knowledge in the field of botanical sciences. Hence I request you to permit 32 students and 2 accompanying staff of our college to visit "CHANDRAVANA" - the medicinal herb garden of your college. We also request your kind self to arrange a resource person who could explain about the medicinal uses of the available plants. It would be appreciated if we could be granted permission on 18th of September 2018 in the afternoon session.

Yours sincerely

Principal

DEPARTMEN OF ZOOLOGY REPORT ON FIELD VISIT

DATE: 21/01/2022

PLACE VISITED: GOVERNMENT VETERNERY HOSPITAL, MYSURU

ACKNOWLEDGEMENT:

"Education's purpose is to replace an empty mind with an open one." — a quote by Malcolm Forbes is best apted to highly esteemed institute Sarada Vilas College, Mysuru. Which works hard in creating a scientific temper and modern trends occurring in society into the tender minds of its students. As occurring in society into the University of Mysore for V per the prescribed syllabus of the University of Mysore for V semester, Bachelor of Science Zoology students, A clinical field visit to government veterinary hospital located at visit to government veterinary hospital located at Ashokapuram, Mysuru was arranged by the Department of Ashokapuram, Sarada Vilas College, Mysuru, to educate about modern aspects of reproduction.

Our heartfelt thanks to Dr. M. Devika, Principal, Sarada Vilas College, Mysuru for granting us permission. Our warmth thanks to Dr. Thimmayya, Health officer for educating us about current trends of reproduction.

INTRODUCTION TO GOVERNMENT VETERINERY HOSPITAL, ASHOKAPURAM, MYSURU.

The department of Animal Husbandry Veterinary Services started functioning independently from 1945. The department is playing a vital role in providing healthcare services to livestock, extension and training to farmers, implementation of socioeconomic programs, conducting sample survey and Animal census programs periodically in the State. Veterinary Institutions across the State are divided into four categories in order to provide better system of services:

- Veterinary Hospital
- Veterinary Dispensary
- Mobile Veterinary Service
- Primary Veterinary Centre

Departmental veterinary institutions are well equipped and having trained staff. Along with treating the ailing animals, vaccination against various diseases is carried out as a preventive measure. Mobile Veterinary Service operating in the State is providing veterinary healthcare services to the livestock of those farmers living in villages where veterinary institutions are not present.

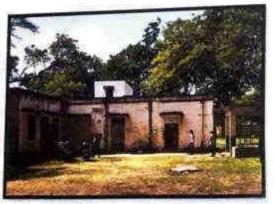

Government Veterinary Hospital, here at Ashokapuram was established on 21st of June, 1951. Since then it is serving as role model for rest of the veterinary treatment section of the city. Dr Thimmaiah, Health Officer of this division is wellknown for his great work and also, In this hospital, there are very obliging staff members.

Farmers and owners of domestic and pet animals are getting benefited from the services of this hospital round the clock. All sort of diseased, injured, and weak animals are brought here, where the treatment is duly given by the efficient staff of the hospital.

On an average, everyday they attend almost more than 5 artificial insemination cases of cattle, 10-15 Dog cases, 10-12 birds' cases like Cock, Hen, Pigeons and they treat cats also. On every Thursday they organize vaccine drives.

People here are very approachable, they will listen to costumer carefully and will reply accordingly. They have good patience to listen and reply. They also give training on poultry.

STERALIZATION BEFORE ARTIFICIAL INSEMINATION

Knowledge about different procedures for cleaning and sterilization of equipments used in artificial insemination is very important for achieving high conception rates in bovine. It is necessary to store all the insemination equipment in a clean container.

CLEANING

Immediately after use of all A.I equipments should be washed thoroughly with water. Semen/egg yolk adhered in the capillaries of A.I catheter or other glass wares get dry after a mean time then it is difficult to clean the glass wares. After doing A.I, catheters should be washed in running tap water to clean the remaining semen in the catheter. Glass wares may then be put in chromic acid solution for overnight dip to remove cloudiness in the glass wares. Application of corrosive substances should be avoided on substances like rubber-wares, it reduces the life span of rubber wares. All the equipments then washed with lukewarm soap solution using brush to make the articles grease free. Finally all the equipments are then washed with running tap water and put inverted for air dry.

Artificial vagina should be thoroughly washed using lukewarm detergent solution and brush. No need of separating the inner rubber lining from hard rubber cylinder while washing artificial vagina.

STERILIZATION

Sterilization is either physical or chemical treatment to eliminate microbes from the equipments. Unsterilized equipments may be the source of infection to female genital tract. Micro-organisms present in the semen reduce the life span of semen in the female reproductive tract. Sterilization of equipments should be done at all stages (Buffers, Semen dilutors, Semen storage & A.I) without negligence.

DRY HEAT STERILIZATION

Generally preferred for glass wares & metallic wares. Dry heat sterilization process is easy & rapid and all the organisms are susceptible to dry heat sterilization. The pathogenic bacteria, viruses and fungi are killed within few minutes at 50-70'C and the spores of various pathogens are killed at 100'C. It is a common practice to sterilize all glassware and metallic wares in hot air oven at 180-200'C for 1 hour.

AUTOCLAVING

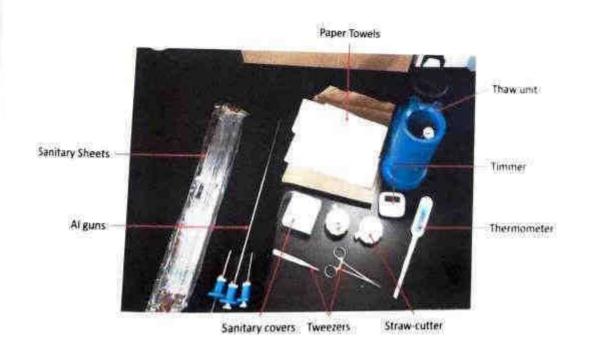

Sterilization by autoclaving is a very popular method. The rapid action of sterilization by autoclaving is mainly due to latent heat of water vapor (540cal/gm). All rubber articles and artificial vagina may be autoclaved at 10 lb. (4kg) pressure at 115.6°C for 20 minutes. Avoid high pressure, it would spoil and change the shape of such articles. Other articles including buffer solutions and Vaseline may be autoclaved at 17 lb. (7kg) pressure at 121°C for 15-20 minutes. Autoclaving is not suitable for solutions containing sugars, because it destroys sugars. Sterilized articles must be stored at air tight cabinets and buffer solutions after autoclaving, should be cooled down to room temperature and should be stored in refrigerator for use.

ULTRAVIOLET RADIATION

Ultra-violet adsorption of bacteria is chiefly by purines and pyrimidines of nucleic acids and less to aromatic rings of proteins. Absorption of ultra-violet radiation causes lethal effect to nucleic acids & proteins. Semen processing lab should have low pressure mercury vapor lambs for sterilization purpose.

GASEOUS STERILIZATION (ETHYLENE OXIDE)

Ethylene oxide is an effective sterilizing agent at lower temperature with good penetrating power under less desirable effects. It is used to sterilize heat labile & moisture sensitive objects like rubber, plastic wares & electronic items. Well cleaned & washed plastic wares are put in polythene bags and sealed it then sealed bags are sterilized in Ethylene oxide chamber.

INSTRUMENTS USED IN A.I PROCESS

ARTIFICIAL INSEMINATION

Artificial Insemination is the technique in which semen with living sperms is collected from the male and introduced into female reproductive tract at proper time with the help of instruments.

The first scientific research in artificial insemination of domestic animals was performed on dogs in 1780 by the Italian scientist, Lazzaro Spallanzani. His experiments proved that the fertilizing power reside in the spermatozoa and not in the liquid portion of semen. Few further studies under research station conditions helped this technique to be used commercially all over the world including India

SYMPTOMS OF HEAT

- The animal will be excited condition. The animal will be in restlessness and nervousness.
- The animal will reduce the intake of feed.
- Frequent maturation (urination) will be observed.
- Clear mucous discharge will be seen from the vulva, sometimes it will be string like the mucous will be seen stick to the near the pasts of vulva.
 - Swelling of the vulva will be seen. Congestion and hyperaemia of membrane.
 - The tail will be in raised position
 - Milk production will be slightly decreased
 - On Palpation, uterus will be turgid and the cervix will be opened

SEMEN COLLECTION METHODS AND EVALUATION

Various methods of collection of semen have been devised from time to time. The older unsatisfactory methods have been gradually replaced by the new modern techniques. There are three common methods.

- Use of artificial vagina
- By Electro-stimulation method.
- By massaging the ampullae of the ductus differences through rectal wall.

The ideal method of semen collection is use of artificial vagina which is safe for sire and the collector also.

ARTIFICIAL VAGINA METHOD

It is the semen collection by AV in cattle and Buffalo. It is the best method and is now commonly used. The artificial vagina has heavy hard rubber, open at both end with a nozzle for air and water in and outlet, rubber liner, semen receiving cone.

PROCEDURE FOR SEMEN COLLECTION

Prior to collection all these parts are cleaned, sterilized and assembled into artificial vagina.

The artificial vagina assembled is held at 45° angle from the direction of penis. The artificial vagina is held with the left hand by a right handed person; and when the bull mounts the cow, the sheath of the bull will be graphed by the operator, directing the gland penis into the artificial vagina, and then the bull gives a thrust to ejaculate.

SEMEN STORAGE

Liquid nitrogen method (-320 degrees F).

The straws were stored in two types of canister; commercial canister (342.25 π x 278 mm²) and custom-made tubing-type canister (4 π x 90 mm²). The depth of liquid nitrogen tank used was between 320 to 350 mm. The level of the liquid nitrogen on the cylinder was fill and maintained as minimum as 50 mm above the top of the canister during the storage period. A bundle of straws was stored in commercial canister and one straw per tubing-type canister. Total of twenty-four 0.25 mL straws were used; eight straws in the commercial canister, eight in upper tubing-type canister and eight in the bottom of tubing-type canister.

INSEMINATION METHODS

There-are different methods of insemination in different species of animals i.e. speculum method, vaginal method and recto vaginal method

Recto Vaginal Method

- In cattle the safe and best method of insemination is "Recto vaginal method of insemination".
- Cow which is in heat is well controlled placing it in a Travis.
- The inseminator will get ready by wearing a plastic apron, gumboots and gloves.
- The semen straw after thawing (keeping the semen straw in warm water for a minute to convert the frozen semen into liquid and the sperms become motile)is loaded in sterilized gun covered with plastic sheath
- The inseminator will insert the gloved left hand into the rectum after applying the soft soap or other lubricant on the glove and back racked the animal, and the hand is further inserted and will catch hold the cervix through rectal wall.
- The A.I gum loaded with semen straw is passed through the vulva to vagina and cervix and observed with the hand in rectum that the A. I gum reaches the cervix, then the semen is deposited by injecting the gun, and after depositing the semen the gun is removed, the empty straw and sheath are disordered.

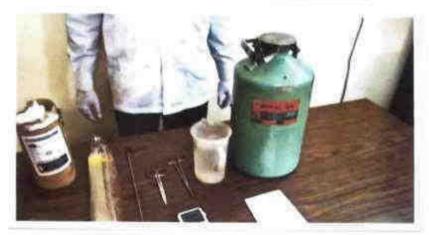

Spectrum Method

In this method, spectrum is placed in the vagina of the cow, which provides passage outside to the site of insemination, then inseminating tube is passed through the speculum and semen is deposited at the cervix.

Vaginal Method

Hand is passed through the vagina and the inseminating tube is guided by hand to the site of insemination and semen is deposited. Here there is a risk of contamination and injury of female genitalia.

PHOTO GALLERY

EQUIPMENTS AND LIQUID NITROGEN SEMEN COLLECTION CONTAINER

RECTO-VAGINAL METHOD OF ARTIFICIAL INSEMINATION

ADVANTAGES OF ARTIFICIAL INSEMINATION

There are several advantages by artificial insemination over natural mating or servicing.

- . There is no need of maintenance of breeding bull for a herd; hence the cost of maintenance of breeding bull is saved.
- It prevents the spread of certain diseases and sterility due to genital diseases': contagious abortion, vibriosis.
- By regular examination of semen after collection and frequent checking on fertility make, early detection of interior males and better breeding efficiency is ensured.
- The progeny testing can be done at an early age.
- The semen of a desired size can be used even after the death of that particular sire.
- The semen collected can be taken to the urban areas or rural areas for insemination
- It makes possible the mating of animals with great differences in size without injury to either of the animal.
- It is helpful to inseminate the animals that refuse to stand or accept the male at the time of oestrum.
- It helps in maintaining the accurate breeding and cawing records.
- It increases the rate of conception
- Old, heavy and injured sires can be used.

DISADVANTAGES OF ARTIFICIAL INSEMINATION

- Requires well-trained operations and special equipment.
- Requires more time than natural services.
- Improper cleaning of instruments and in sanitary conditions may lead to lower fertility.
- If the bull is not properly tested, the spreading of genital diseases will be increased.
- Necessitates the knowledge of the structure and function of reproduction on the part of operator.

CONCLUSION

Field trips are useful as they proffer students with the necessary experience that cannot be imitated within the laboratory setting. We affirmed that, this trip to Government Veterinary hospital, Ashokapuram, Mysuru was tremendously optimistic experience for us which helped us to know about Artificial insemination in cattle with more practical approach. The aim of learning the Modern artificial technologies involved in reproduction of cattle was successfully accomplished with enthusiasm among the students.

This Field trip also helped us to know about the behavior of cattle during their oestrous period and the level of artificial injected hormone impact on them.

The President/ Hon. Secretary Sarada Vilas Educational Institutions Mysoru

Through. Principal Sarada Vilas College

Respected Sir,

Subject: One Day State Level Workshop on "International Financial Reporting Standards"

On 25th February 2020, the department of Commerce and Business Administration has organized one day state level workshop on "International Financial Reporting Standards" in association with The Institute of Cost Accomments of India, Mysuru Chapter, Prof. D Anard, Dean Commerce and Management Bahaddur Institute of Management Studies., UoM, was the chief guest and Sri B S Parthasarathy, President of SVEI inaugurated the workshop in which Sri H K Srinoth Hon. Secretary, SVEI, Prof. P Dhanalakshmi Principal, SVC were also

The programmie was very much successful. The participants were very happy. The participants took home lot of information and knowledge regarding importance of IFRS. The programme was started at 11:00 AM and went up to 05:00 PM with lunch break of about 30minutes. The workshop had three Technical sessions; Prof. B Mahadevappa, Professor, BoS in Commerce, Hemagangothri, UoM, was the resource person for first technical session on the topic "extensible Business Reporting Language".

The resource person for the second technical session was Sri Prakash K, Chartered Accountant, he addressed the delegates about "Indian Accounting Standards" and highlighted the importance of Ind. AS for accountants and also students. The third session was addressed by Sri. Thrinesh, Secretary, ICAI gave the knowledge on "International Financial Reporting Language" and need for Harmonization of Accounting Standards.

in tural 250 delegates were participated from different colleges of Mysuru and surrounding districts. Research scholars, Lectures from other universities were also participated in the interaction. All the participants were issued the certificate of participation.

To organize this programme from our end a few expenses have incurred. The list of expenses and the original vouchers are esclosed here with. So, kindly I request your good self-to reimburse the amount and support us in organizing such events in future also.

湖

Thanking You

Report on webinar "Is Criminality Inherited?"

Organized by Department of Zoology on 13th January 2021.

Resource Person: Dr.S.N.Hegde, Former Professor and Chairman, Department of studies in Zoology, University of Mysore, Mysura

The Department has organized a webinar on "Is Criminality Inherited?" the detail report of the webinar has been furnished below:

The registration for the webinar was done in Google forms, by the span of two days we received 160 registrations. The webinar was streamed on Google meet platform.

Dr.S.N.Hegde, Former Professor and Chairman, Department of studies in Zoology, University of Mysore, Mysuru was the resource person.

The session started at 11:00 AM on 13/01/2021, started with the instructions to the participants by Ms. Arpita K, Assistant Professor, Department of Commerce, Ms. Jyethsaa. V. Mashu, Assistant Professor, Department of Zoology welcomed the gathering. Smt. Shakunthala, Assistant Professor, Head of the Department of Zoology introduced the resource person and moderated the scientific session.

At 11:15, session was taken over by the speaker and it was very interesting and also participants were enlightened with information. The session was started with some basic genetic concepts like Mendelian Principles and chromosomal segregation. He explained how chromosomal non disjunction induces aggressive behavior and mental retardation in individuals having an extra Y chromosome. He also explained that Crime has a complex genetic basis with the influence of Hormones, Individuals Physiology and Environment.

The session concluded at 12:30 with question and answer session. The questions were selected from the chat box at the time of discussion and all the questions were answered in presentation. Few Participants had questions even after the session; all the questions were answered by the speaker.

Dr. M. Devika, Principal, Sarada Vilas College presented the Presidential speech and expressed her gratitude to Resource person and also towards the Management for their constant support and encouragement.

The webinar program was concluded with vote of thanks by Ms.Gagana S.B. Assistant Professor, Department of Botany, Sarada Vilas College. Feedback link was given to all the participants for reviewing the webinar. Total registration was 160 from different districts of Karnataka and it includes Professors, Assistant Professors, Research scholars and students.

Shakunthala, Assistant Professor and Head of the Department of Zoology, Dr. Jagadheesh Krishna, Jyothsna.V.madhu and Gagana,S.B., Assistant Professor, Sarada villas college organized the webinar in well manner. The webinar was very informative and well appreciated by the participants.

6

I thank Sri Subraya, President, SVEI, and Sri Chandra Shekhar.N. Honorable Secretary, SVEI and Dr. M. Devika, Principal, Sarada Vilna College for their encouragement and continuous support in all our Thanking you. Smt. A Report On Kannada Special Lecture

"Literature which moulds the humanity" is the biggest medium of art said by Sathihya Academy president Dr. B V Vasanth kumar, supporting this statement; Sarada Vitas College has organized a special lecture on the contribution of literature in developing individuality. The special lecturer has opined that literature makes man more intellectual, matured and refined. Now the man engulfed in many anxieties has become inventible to blossom his mental peace through literature. Society acts as a mirror and literature is its reflection. Hence, he opined that students can lead a life worthwhile through art and literature. Dr.M Devika the Principal, Sarada Vilas College has presided the session remarked that Sarada vilas college has always been encouraging art and literature from decades. These many such lecture programs have been scheduled to mark the celebration of golden jubilee of the college. Dr. Sathyanarayana, Dean, DOS in Commerce and Management grace the occasion. Dr. Divya and Dr. Anand compiled the programme Kum. Nethra rendered the innvocation and Sri. Thejas has done the vote of thanks.

Webinar at Sarada Vilas College Mysore on the World Biodiversity Day

22-05-2021

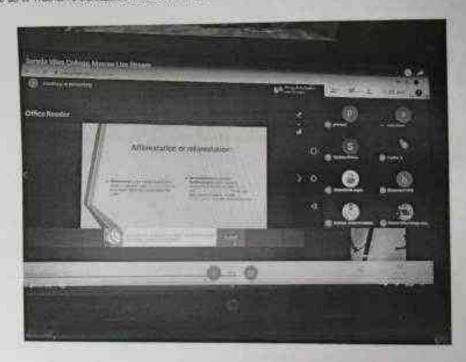

Sarada Vials college, Mysuru had organized a webinar on "Deforestation and Afforestation" on the occasion of World Biodiversity Day On 22-05-2021.

The webinar was organized through Google meet platform to highlight the importance of trees in biodiversity and to fulfil the theme of 2021 World Biodiversity Day - "we are a part of the solution". The Speaker was Miss Anusha P, Assistant Conservator of Forests, Mysuru Circle, Government of Karnataka and she started her speech by saluting the departed soul Mr. Sundarlal Bahugun, a noted environmentalist and Chipko movement leader who passed away recently. She explained the importance of biodiversity and also the various programmes taken up by Government of Karnataka regarding afforestation programmes. Nearly 750 participants had registered from different parts of Kamataka and also from neighbouring states.

Webinar stated with introductory remarks by Dr. Devika M, Principal, Sarada Vilas College, who briefly explained the importance of biodiversity day. Smt Suganthi S Singh, HoD of the

department of Physics welcomed the participants. Smt Shakuntala, HoD of the department of Zoology introduced the speaker where as Captain R A Manjunath, HoD of the department of Microbiology proposed vote of thanks and Miss Arpitha, Ausistant professor of Commerce acted as the moderator.

Principal Dr. Devika M, informed the press that, the interested can watch the event on You Tube as it was live streamed on You Tube.

Thanking you

INTERNATIONAL WEBINAR at SARADA VILAS COLLEGE ON 11-6-2021

Sarada Vilas College, one of the most sort out colleges in Mysure is celebrating its Platinum jubilee in 2020-21. As a part of it, the college is organizing a series of seminars and webinars throughout the year. The Department of Chemistry (UG& PG) and Department of Biochemsitry had organised a one day international webinar on 11-06-2021. The resource person Dr. K Sandeep Prabhu, A Senoir Research Associate, Department of Veternary and Biochemical Sciences, Penn State University, United States of America, a well known researcher oin the field of Pharmacology, Toxicology and Immunotoxicology delivered a talk on "Endogenous Lipid

Mediators in Inflammation and Cancer". Dr. K Sandeep Prabhu is a scientist of high profile and has the honour of holding the memberships at prestigious scientific bodies of America, India and other countries and also has delivered talks in top universities of the world. He works as managing editor and reviewer of many journals of international repute specifically Springer® group of journals. It was a very informative and inspiring talk and the participants really enjoyed and appreciated the knowledgeable talk. The presentation was meticulously made and presented, which had the details of role of the selenoproteins in controlling inflammation and cancer. Nearly 100 participants attended on Google Meet and other 235 participants from students sand teaching fraternity of various colleges watched it in YouTube live stream using the link.

Dr. Subraya B. M., President, SVEI, Sri. N. Chandrashekar, Hon. Secretary, SVEI, Dr. Devika M. Principal, SVEI, were the other dignitaries attended. Dr. Devika M, Principal proposed the inaugural address, students of M.Sc Chemistry, moderated the programme.

Thanking you,

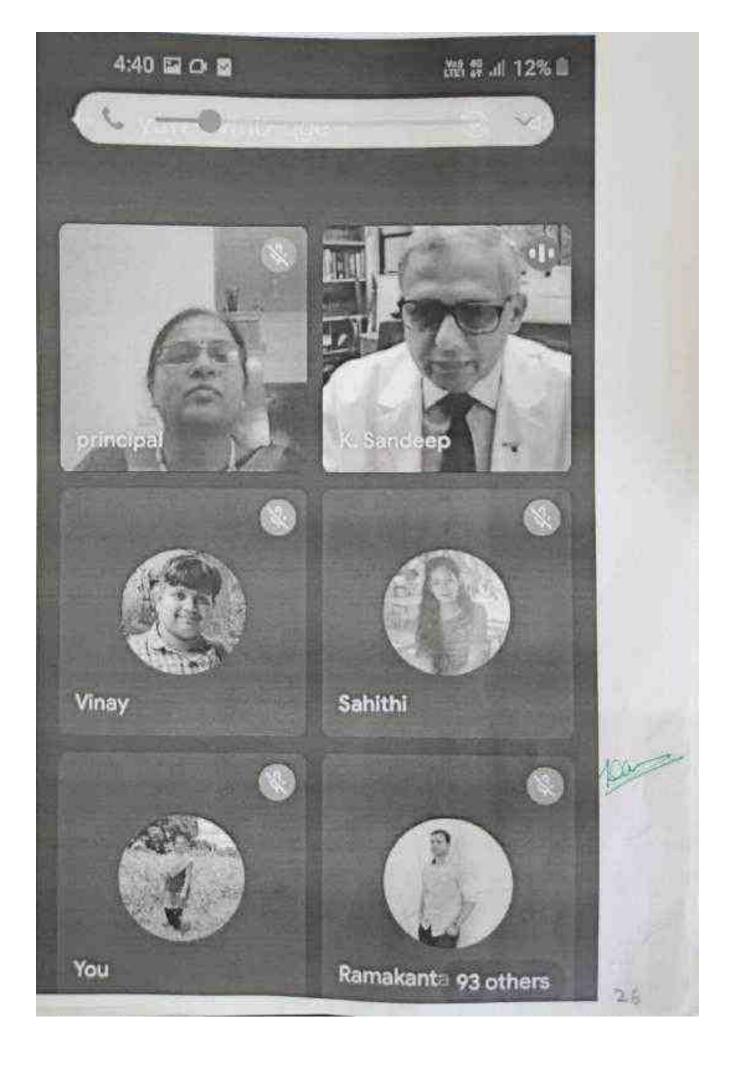

Yours sincerely

VBSC 451 Immunotoxicology of Drugs and Chemicals (Coordinator & Instructor: Dr. Prabhu) (Fa semester; 3 Credits)

The immunotoxicology course focuses primarily on the effects of environmental chemicals. therapeuties, and recreational drugs on the immune system. Immunomodulatory mechanisms are examined at systemic, cellular and molecular levels. Discussions include theory, principles, and methodology and key issues in immunotoxicology. (3 Credits)

VBSC 438 Introduction to Molecular Pharmacology (Coordinator: Dr. Adam Glick/Coinstructor: Dr. Prabhu) (Sp Semester; 3 Credits)

Molecular interactions between drugs and their tissue receptors and possible modifications of drugs to target different receptors will be discussed. Drugs used to treat infectious disease, cardiovascular disease, immune modulators, and anti-cancer drugs will be examined for their molecular interactions. Students will understand the complexities of new drug design and development from the initial stages of laboratory development to final approval for use by the Food and Drug Administration. (3 Credits)

VBSC 514 (NUTRN 514) Prostaglandins and Leukotrienes. (Alternate Sp semester; Coordinator: Dr. Prabbu; 3 Credits)

The course provides an in-depth coverage of how fatty acids are metabolized in eukaryotes by various enzymatic and non-enzymatic mechanisms. The course will emphasize on the physiological roles of these fatty acid oxidation products in general health, inflammation, and reproduction along with their cellular basis of action via receptor-dependent and -independent mechanisms. (3 Credits)

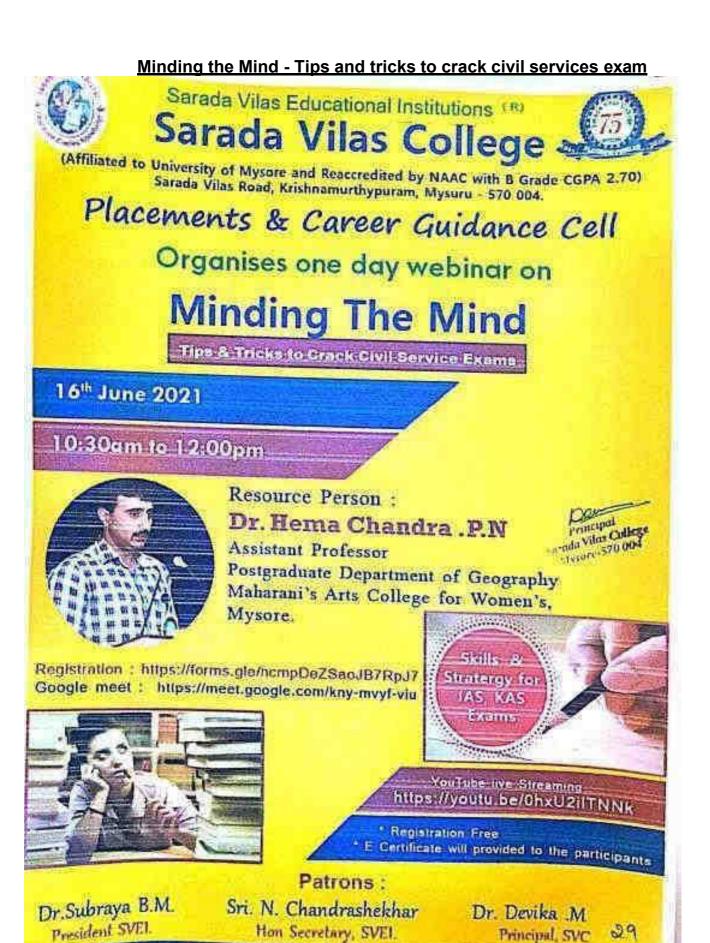

Rosearch

Research projects in our laboratory focus on the following areas:

- 1. Effect of selement on leukemia stem cells.
- Targeting leukemia using novel lipid mediators derived from n-3 and n-6 fatty acids.
- 3. Redox-dependent metabolomic changes in immune cells and its relevance in resolution of inflammation.
- 4. Effect of selenium and selenoproteins on gut inflammation with an emphasis on cicosanoid metabolism and amerophage polarization.
- 5. Effect of hust sclenoproteins in helminth infection.
- 6. Redox regulation of erythropolesis.

Targeting of leukemia stem cells: In collaboration with Dr. Robert Paulson vootube video - Penn State: Inspiring Collaboration

Report of Webinar on "CAREER OPTIONS IN BIOTECHNOLOGY" organized by Sarada Vilas College,

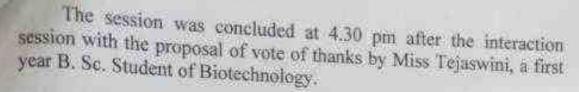

Mysuru on 30-6-2021

The Department of Biotechnology of Sarada Vilas College, Mysore, had organised a webinar on "Career Options in Blotechnology" on 30th June 2021 to help the students to plan their carrer in Biotechnology. Webinar was Presided by Dr. M. Devika, Principal, Sarda Vilas College and Patrons of Sarada Vilas educational institution Dr. Subraya and Honorable Secretary Sri N Chandrasekhar graced the occasion.

The session started at 03:00 PM by giving instructions to the participants by Miss Tanushree, a student of final year B. Sc., Mr. Madhushankar welcomed the gathering and Miss Kannika Gupta, a final year student introduced the Resource Person and Dr. Devika M, Principal, briefed the audience about the objectives of the webinar.

Dr. Umesha S, a senior Professor from the Department of Stuidies in Biotechnology, University of Mysore, with his vast experience of morethan 25 years of teaching and research experience who os also honourd with the Presitigiuos Fellowships of National Academia like Fellow of National Academy of Biological Scinces, Fellow of International Society of Biotechnology and Fellow of Indian Society of Mycology and Plant Pathology, addressed the students and gave a detailed account of the carrer options in Biotechnology which was really appreciated by the students and staff for his meticulous presentation.

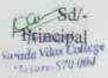

He expressed his opinion that research in the field of basic science is contributing enormously for the nations progress. Modern Biology/Biotechnology is playing a pivotal role in all the fields of human life that is why the business people calling this field of Biotechnology has making money out of Biology. Prof Umesha S, stressed upon role of DBT in encouraging and supporting Biotechnology related research in all the fields for the benefit of the mankind. He said, Government of India is encouraging the academic program and also the R&D by supporting enormously to the students who are interested to pursue their career in the field of Biotechnology, DBT, Under Ministry of Science and Technology is conducting an all India entrance test GAT-B for the admission to MSc Biotechnology. Any Science Graduate can appear for this entrance test ONLINE. He told that the qualified candidates can get admitted to MSC Biotechnology under the DBT recognized University/centers for which they will give 5 thousand rupees has stipend for 2 years to complete their MSc biotechnology Program. DBT Government of India will again conduct DBT-BET test, the candidates qualified for DBT-BET can take admissions to PhD in any recognized DBT institutes/Universities to pursue their PhD Program. Prof S Umesha informed that the MSe Biotechnology students can also appear for UGC-CSIR-JRF, ICMR-JRF, ICAR-JRF and pursue their PhD Program. In addition to above there are certain institutes CCMB, CDFD, Hyderabad, IISc Bangalore, will conduct their own entrance test for which MSc Biotechnology students are eligible to apply.

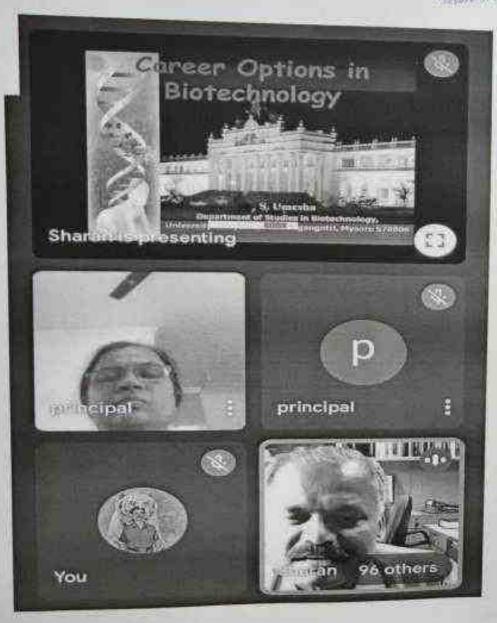

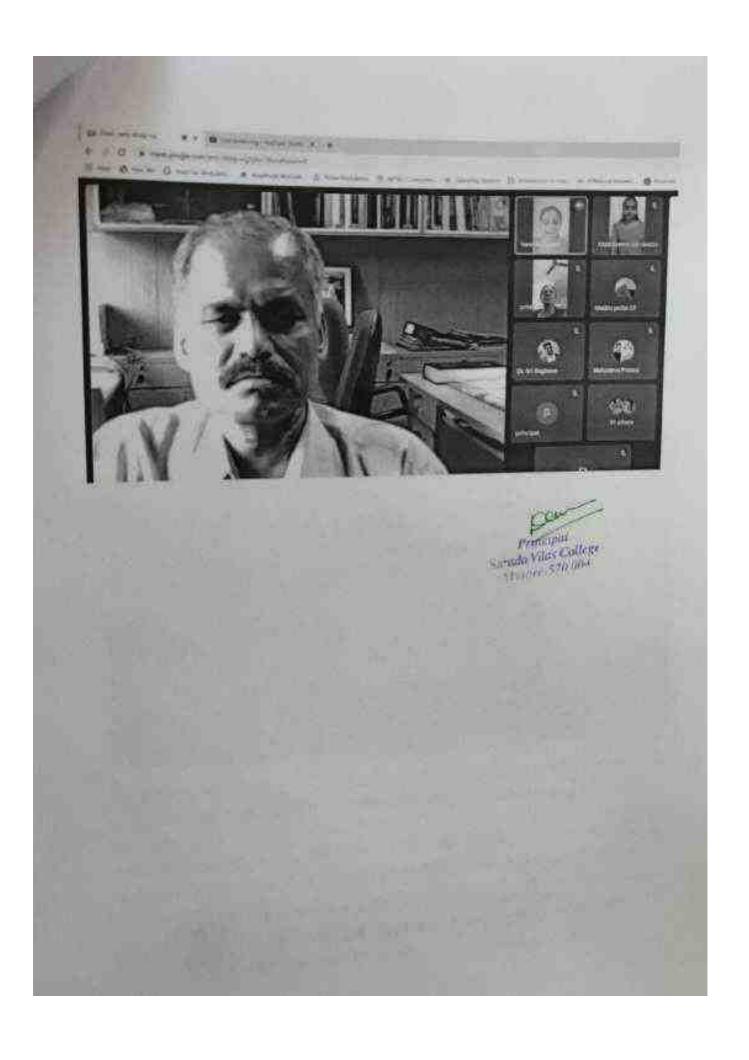

Thanking you,

Yours truly

Importance of cost leadership to succeed at workplace and higher market share

Report of Webinar conducted on 30th June 2021 Topic: Cost Leadership for Competitive Advantage.

Resource Person: Prof J S Kiran DEAN, GEMS B School

Mysore.

The Webinar was conducted at Sarada Vilas College, Mysore by the Department of Commerce and Business Administration between 11.00 AM to 12.00 PM.

Prof.1 S Kiran said that the main objective of the business is Profit Maximization. The profit can be maximized by minimizing the cost of the product. Amazon and Flip Kart companies charge less price than the actual price because they enter into contract with local distributor and retailers.

The companies analyse the financial statements and build Cost sheet of the product with the help of cost accountants, marketing, purchasing and finance department personal.

The Professor said that e -business company will negotiate the advertising, marketing, raw material, transportation and packaging costs with supplier and enter into agreement, so automatically cost of the product are reduced.

The Airline business could also reduce costs by avoiding food, luggage and standing time charges in Airports the Combination of Economic, Finance and Behavioural sciences will reduce any costs.

Prof.Satyanarayana, Dean, Dept of Commerce and Business administration addressed the resource persons and other participants. Arpitha.K welcomed the session and Rajkishore S.N gave the validatory speech. Around 96 students of commerce and business administration stream were present.

Auditing - a critical tool for making managerial deicisons effective

Report of Webinar conducted on 10.7.2021
Topic: Auditing as a tool for Managerial Decisions

Resource Person: Sri. Siddhartha Chandra Senior Associate KPMG – Global Delivery Centre Pvt Ltd

The Webinar was conducted by the Department of Commerce and Business Administration on 10.7.2021 between 11.00 AM to 12.00 PM.

The speaker shared his thoughts on different types of Audits and the importance of Audits in the effectiveness of every organisation irrespective of the size and scale of operations. Management audit seeks to evaluate whether a company has a suitable organization and appropriate management team in place to achieve its objectives. It focuses on strategic objectives and enables a company to adapt its key human resources to the changing business environment.

He opined that the purpose of a management audit is not to appraise individual executive performance but to evaluate the management team in its effectiveness to work in the interests of all the stakeholders, maintain good relations with the employees, and uphold reputational standards.

While speaking on the importance of Management audit in organisations, the speaker told that reports on matters of policies and their implementation is very important to improve the efficiency of the management. Management Auditors advise the management on various matters related to performance of various departments as well as of the organization as a whole. Management Auditors may or may not be any finance and accountancy person. Management Auditors evaluate the actual performance by comparing it with predetermined standards.

1|Page

Auditors reveal any kind of defect and irregularities in the working of management. It can be said management audit helps in improving the performance and efficiency of management.

Prof.Satyanarayana, Dean, Dept of Commerce and Business administration addressed the resource persons and other participants. Dr.Jyothi A.N welcomed the session and Vijeth J.K gave the validatory speech. Around 95 students of commerce and business administration stream participated in the webinar.

SARADA VILAS COLLEGE, MYSURU

PLATINUM JUBILEE LECTURE SERIES

DEPARTMENT OF ZOOLOGY ORGANIZED

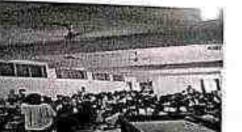

"VOICE OF ANIMALS"

AN INTERACTIVE SESSION WITH PFA, MYSURU

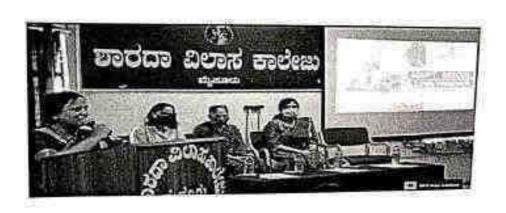

Report

Date: 10/01/2022

On the occasion of "International Animal Rights day" on 10th December 2021, the Department of Zoology, Sarada Vilas College, Krishnamurthy Puram, Mysore conducted "Voice of animals" an interactive session with 'People for Animals', Mysore with regard to inculcate awareness among the students about the untold rights of animals.

The session started at 12:00 PM on 10/12/2021, started with the instructions to the participants.Mrs. Shekunthala, Assistant Professorand Head, Department of Zoology welcomed the gathering and introduced the guests and Dr.M.Devika, Principal, Sarada Vilas College presented the Inaugural speech. The scientific session was moderated by Ms.

The resource persons areMrs. Savitha Nagabhushan, The Honorary Managing Trustee, PFA, Mrs. Kokila Jain, A Biologist and Sparrow ConservatorandMs. Ashika Appalah, Social media and Public relation manager, PFA

Mrs. Savitha Nagabhushan has served as honorary managing committee member at CUPA & as a trustee at Wildlife Rescue Center in Bangalore. She also photographed captive elephants in Assam, Andaman's, Bihar, Karnataka and especially in Kerala. Mysore City Corporation was still poisoning the street dogs till 2010, but in the year 2010 reaching out to Animals got the contract for sterilization of the dogs. She has worked for stray animals for more than twenty years. She also photographed electrocution. After her photos reached Maneka Gandhi (Member of Lok Sabha), the killing of dogs was stopped in Bangalore.

Ms. Ashika Appaiahis a gold medalist from University of Mysore. She started her carrier as content writer and slowly upgraded her skills to a graphic designer, Movie Director, Photographer, Videographer and editor she also manages the social media and Public Relations of PFA Mysore.

She elaborated the structure and functioning of People for animals and exposed the inside world of PFA beautifully through her presentation. The idea of pet adoption was conveyed to the students.

Mrs. Kokila Jain is a Biologist and Sparrow Conservationist and working for the environment too by making seed balls and saplings which are being distributed. She is a science graduate and strongly believes in the philosophy of Live and Let Live. She shared her concern and conservative activities on diminishing Sparrow of India.

Mrs. Savitha Nagabhushan, The Honorary Managing Trustee, PFA clarified various queries raised by the students The program was concluded with vote of thanks by Ms. Jyothsna.V.Madhu, Assistant Professor, Department of Zoology, Sarada Vilas College. The Session was very informative and well appreciated by the participants.

"Functional Competence of Teachers"

REPORT

The Sarada Vilas College conducted a orientation programme for the newly appointed teaching faculty on 11th of December 2021 under the guidance of the Principal Dr. M. Devika, Sarada Vilas College, Sri Dr. H.N. Vishwanath , Faculty, Sarada vilas Teachers' College, the Resourceful person, was being invited for the programme. Dr. Saroja Yallappa Talwar, the staff coordinator of HRDMC, made a warm welcome speech and Smt. Kumuda, Mathematics department, introduced the Resource person to the faculty members.

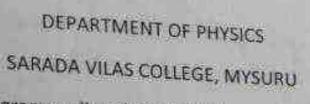

Dr. H. N. Vishwanath enlightened with his innate knowledge regarding the teaching techniques and asked to make class interactive session rather being one side teaching which makes the students reluctant in the class.

The resource person who himself is a source of motivation gave encouraging examples from his own life and inspired faculty to be a self-motivator. He discussed the importance of positive thinking and attitude which brings optimism into life and such constructive changes can make one brighter and more successful. This program helped faculty to be guided by a positive mind and driven by self-motivation.

Smt. Srilakshmi, English department, proposed a vote of thanks to end the session.

SARADA VILAS COLLEGE, MYSURU DEPARTMENT OF PHYSICS

Special lecture report:

A special lecture on "LIFE CYCLE OF STARS" by Dr. Shivalinga Swamy T, Associate Professor and Head Department of physics, Govt. Autonomous College, Mandya, was held on 16th of December 2021 at 11:00 AM in AV hall of Sarada Vilas College, Mysuru.

Principal Dr. M Devika welcomed the resource person Dr. Shivalinga Swamy T. Smt. Suganthi 5. Singh, Associate Professor and Head department of physics, introduced the resource person to the students. The organisers M.R. Prathap, Assistant Professor, Dhanushchandraguru H. M., Assistant Professor and A. R. Naveen kumar, Assistant Professor actively organised the special lecture.

The talk on "LIFE CYCLE OF STARS" was conducted for one and a half hour duration by the resource person. 160 students actively participated in the special lecture, cater interaction session took place with students asking various questions for which Dr. Shivalinga Swamy T answered and cleared all their doubts.

Student's feedback:

Students gave a positive feedback and said that the special talk was very much interesting to them by which they got some ideas about black holes.

I. Background

December 22nd is a day of celebration for all Mathematicians in India. This day is celebrated as National Mathematics Day throughout the country. On this day, in 1887, born the legendary mathematician Srinivasa Ramanujan in a small place in Tamil Nadu. Difficulties mattered nothing to this genius, who was committed and passionate towards creating mathematics of his own. G.H. Hardy, one of the finest Mathematicians and also the man who introduced Ramanujan to the formal Mathematics describes his relationship with Remanujan in his autobiography A Mathematician's apalogy as follows: "I still say to myself when I am depressed, and find myself forced to listen to pompous and tiresome people, 'Well, I have done one thing you ould never have done, and that is to have collaborated with both Littlewood and Ramanujan on something like equal terms". These words of Hardy are enough to tell the impact Ramanujan had on World Mathematics Community. It is not an exaggeration if we tell that, even after a century Ramanujan has left us physically, most of the current research articles in the areas of q-series, modular equations and partition theory contain the name and ideas of Rumanujan. In recognition of the contribution of Rmanujan to Mathematics, in 2012 Central Government of India declared 22nd December of every year as the National Mathematics Day in India. Hence this day, 22sd December is a day of celebration for people working in Mathematics. To commemorate the birth day of Srinivasa Ramanujan, Sarada Vilas College in collaboration with Sri. H. D. Devegowda Government First Grade College origanized a National level weblnar on 27th December, 2021. Dr. C. S. Yogananda, Former professor, SJCE, Mysuru was invited as the speaker for the webinar.

2. Formalities

The webinar began with an introduction by Yathirajaharma M. V. Asst. Professor, Sarada Vilas College, who acted as the anchor. The guests were welcomed by Dr. Vijay Kumar, Asst. Professor, Sri. H. D. Devegowda Government First Grade College. This was followed by the encouraging speeches by the Principals of both the colleges, Dr. Devika M and Dr. G. D. Narayana. A brief introduction of the speaker Principals of both the colleges, Dr. Devika M and Dr. G. D. Narayana. A brief introduction of the speaker was given by Ms. Pushpa K, Asst. Professor, Sarada Vilas College. This was followed by the talk by Dr. was given by Ms. Pushpa K, Asst. Professor, Sarada Vilas College.

C. S. Yogananda and an interaction session. Finally the vote of shanks was given by Dr. Saroja Y Talwar, Asst. Professor, Sarada Vilas College.

Dr. C. S. Yogananda

3. Webinar

The main objective of the webinar was to give glimpses of the way Ramanujan used to work. The author chose universal quadratic forms as the main example. Before beginning the talk on the actual topic, universal quadratic forms, the speaker showed the online repository of works of Ramanujan. It was the website www.ramanujan.sirinudi.org which can be accessed freely by anybody. Speaker mainly used this website to show the work of Ramanujan on universal quadratic forms and simultaneously used a presentation. Title of the presentation was "Universal quadratic forms from Ramanujan to Manjul Bhargava". Speaker began with the meaning of quadratic forms and then explained how the problem of universal quadratic forms were perused by various mathematicians from Ramanujan to Manjul Bhargava including J. H. Conway. A universal quadratic form is a positive definite quadratic form with integer matrix which can represent all positive integers. The form which was considered by Ramanujan was the below one:

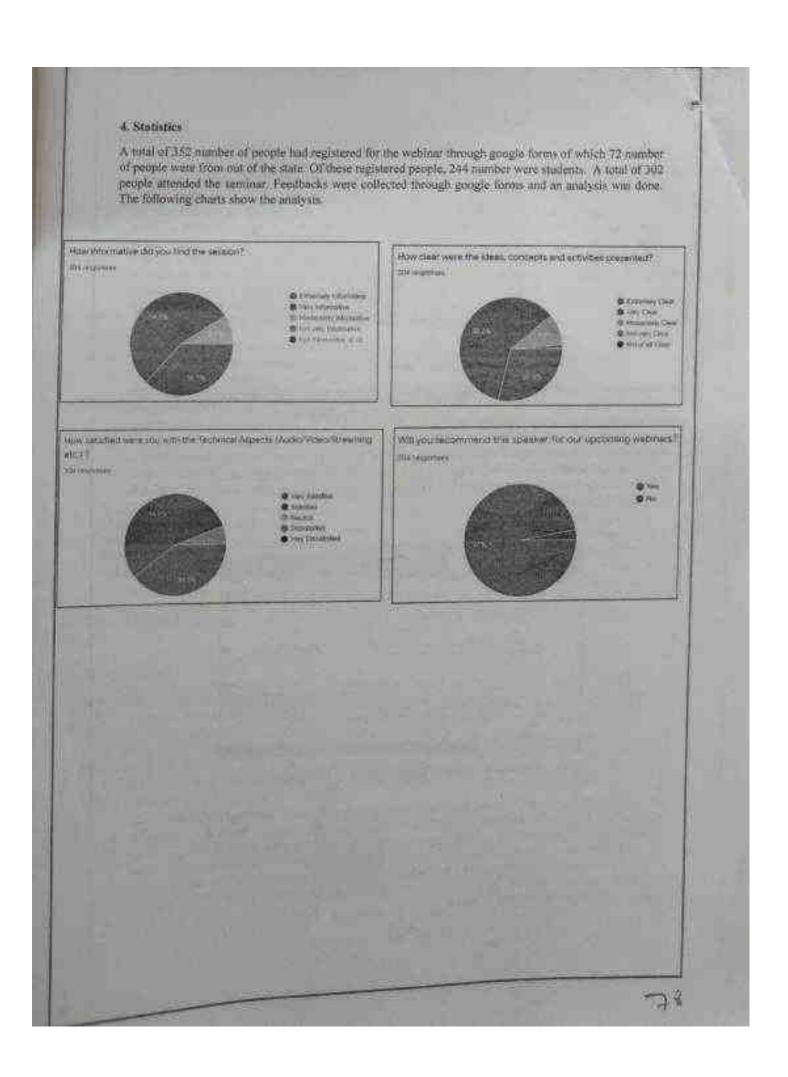

$$ax^2 + by^2 + cz^2 + dw^2.$$

Mathematicians were interested in finding the conditions on a, b, c and d for the above expression to be a universal quadratic form. Ramanujan showed that there were 55 possibilities on a, b, c and d for the above form to represent all natural numbers. This was true, provided all the coefficients, a, b, c and d were positive. Later, mathematicians became interested in the problem of finding the conditions on generalized quadratic forms to be universal. For instance, J. H. Conway and Schneeberger found out a way that for a quadratic form with integer entries to be a universal quadratic form, it is enough to check positive definite quadratic form with integer entries to be a universal quadratic form, it is enough to check if it represented all natural numbers from 1 to 15. Similarly Manjul Bhargav perused the same work and proved the 290 conjecture of Conway.

Speaker showing the original paper of Ramanujun

This was a small journey kind of story from Ramanujan to Manjul Bhargay. Speaker finished the talk by showing few pages of Ramanujan's notebooks (like the tast cab number's page and number of showing few pages of Ramanujan's notebooks (like the tast cab number's page and number of showing few pages of some number as sum of 4° powers of some number as sum of 4° powers of some number as sum of 4° powers to pursue firster representation of 4° power of some numbers; if any. Speaker himself encouraged students to pursue firster to talk, speaker estend students to interact if any speaker, the question on sums of squares. Few shiftents enthisiationally interacted, thought, and responded by asking a question on sums of squares. This was a lesson by the speaker, to question oneself similar sinds of to the question of the speaker. This was a lesson by the speaker, to question of the speaker.

What after B.sc?

Webinars on 'What after B.Se?'

Organized by

Career Guidance and Placement Cell

Sarada Vilas College, Mysuru

In Collaboration with

Institute for Advanced Studies

Dates: 24th and 25th, January, 2022

Time: 12 pm to 01 pm Mode: Google meet

Speakers:Mr. Mayank Sharma and Ms. Alisha Habib.

Special Invitees: Dr. B. M. Subraya, President, Sarada Vilas Educational Institutions

Sri. N. Chandrashekar, Secretary, Sarada Vilas Educational Institutions

Dr. M. Devika, Principal, Sarada Vilas College

Sint. Suganthi S Singh, IQAC co-ordinator, Sarada Vilas College

1. Background

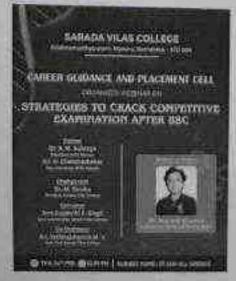

Institute for Advanced studies (IfAS) is a private organization with the mission of democratising online education through personalized fearning. The institute provides coaching classes for various competitive examinations like HT JAM, GATE, THR GS, CSIR-NET, SET and so on. The team of IFAS comprises of several well qualified persons who not only have the experience of coaching several students but also have cleared so many compensive examinations. Strada Vilus College collaborated with IFAS in conducting some career guidance programs for students especially related to higher education after 8.5c. The result of this collaboration was the two webbiars, one for physical science students and the other for

2. Webinars

On 24th, a webinar for physical science students was organized. The title of the webinar was - Strategies to crack competitive examination after B.Se'. The speaker was Mr. Mayank Sharma of BAS. The speaker for the webinar 'Unwrapping brighter future opportunities in life sciences' on 25° was Ms. Afrilia Habib. 160(70 for 24th and 90 for 250) students of Sarada Vilus College had registered for the webmars. In both the sessions, the speakers fist listed few competitive examinations in India - like HT IAM, TIFR GS, CUCET, JEST etc., which can be taken by B.Sc graduates to enter mainly into higher education institutes for M.Sc or Integrated Ph.D. Speakers then took HT JAM for discussion and discussed the syllabus, pattern of question paper with the students. This was followed by the analysis of question papers of the previous years, some suggestions for preparing for these exams and also information regarding the materials for the examinations. Towards the end, there were interaction sessions. In the beginning of the webinars, our Principal. Dr Devika M, spoke few words on the usefulness of these webinars for our

3. Plan ahead

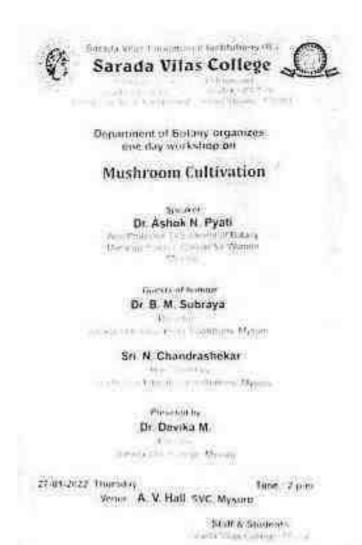

In the webinars, IfAS faculties shared information about the IfAS app and their website. The analysis of question papers of all the examinations as well as some free videos of bitoring are available on their website. Further, materials related to these examinations, though not available for free on their website. can be availed. If AS is interested in tying up with Sarada Vilas College in conducting coaching classes especially for Sarada Villas students in separate batches at discounted fees. Further discussions are yet to happen between HAS and Sarada Vilus College in this direction

DEPARTMENT OF BOTANY

REPORT ON MUSHROOM CULTIVATION WORKSHOP

Mushrooms, often referred to the fruiting body of the gill tongs, are frequently mentioned as alternative source of food. In the present circumstances popularizing mushroom as a part and parcel of everyday food is of paramount importance. Mushroom farming is becoming successful because of its low inputs. It was endcolated that approximately 317 million metric tones of fresh mushrooms could be produced annually that would provide 197g of fresh mushroom daily to each person in the world.

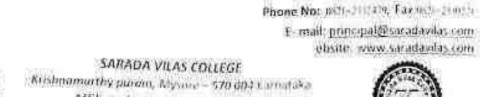

With this point of view, Department of Botany, Sanda Vilas College, Mysaro had organized one day workshop on "Mashroom Cultivation" for students as a part of their emmoulum. The workshop was conducted on 27th January 2022 in the AV Half. The workshop was mangazoted by Dr. Ashok N. Pyata, Asst. Professor, Department of Botany, Maharata's Science College for Women, Mysaro and presided by Dr. Devika, M. Principal and Hand of the Department of Botany.

Workshop began with formal welcome note and mangiration. The workshop was of two sessions, the first session was the lecture on mushroom cultivation. The resource person covered various topics such as, types of edible mushroom and their normalisms) importance, difference between edible and poisonous mushrooms, he also gave as idea of identification rechargies for estable and poisonous mushrooms, and he spoke about the basis infrantructure and financial requirements for a beginner in mushroom cultivation and also about hundles in mushroom larging.

The second session was hands on experience of mushroom cultivation, where the resource person demonstrated the meshod of cultivating Oyster mushroom using paidy straw as a substrate. He also made the students to get involved in the practical session of musbroom cultivation, where students

Dr Ashok & Pyati Assistant Professor, Department of Botany Material Science College for Assince Myania

Dear Su.

Saturda Vilas I ducational Institution (R), established in the year 1945, is a pronecting college in the field of education in Myanti, Our fusitionia striving to attain all round excellence and to impact quality education along with the ethical, cultimal awareness and social responsibility to students of all strata of society under the pushance of dynamic management of Sanada Vilas Educational Institution(R).

In continuation of our efforts, to impart quality education laying more emploises on Practical training, we are organizing Hands on workshop on "Mushroom Cultivation". We are happy to invace you to the workshop on 27.01.2022 at 02.00 pm. It will be appreciated if you accept our invitation and help us in giving practical training to Hotany and Microbiology students of our institutions.

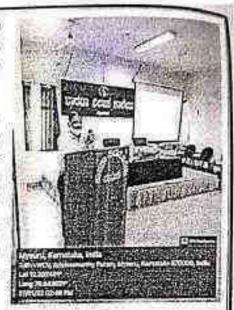

Thankere You

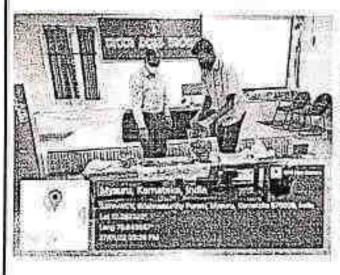

Yours aincerely

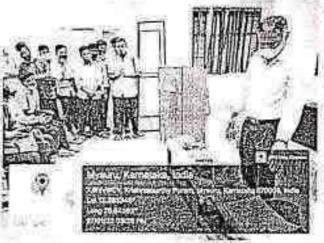

All my - 1 con

learnt the methods and techniques involved in mushroom cultivation, who had only theoretical knowledge about it. Students were delighted with his presentation and demonstration. The workshop came to an end with the valedictory note.

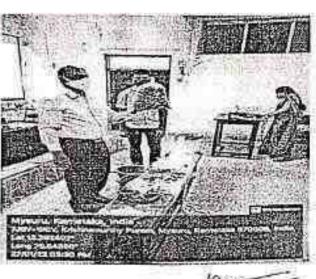

Mushroom sultivation is the most practiced occupation in the rinal as well as urban areas of India, which has become a subsidiary source of meanic besides agriculture. Sarada Vilas College, being higher education institutions which is imparting quality education to the students mostly belong to the rural areas in and around Mysuru district, where agriculture is most preferred occupation. Students could be benefitted from this trackshop especially those who are practicing agriculture. It gave practical knowledge on mushroom collevation and also ignited the young minds to come up with the practice of mushroom farming.

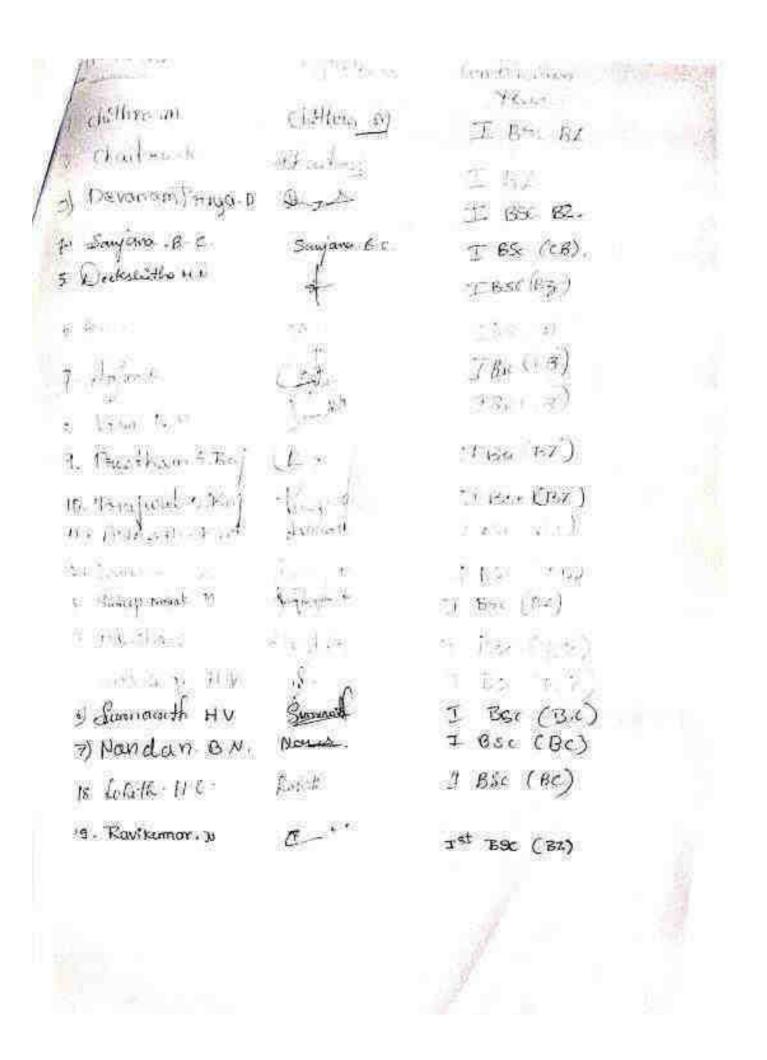

Dr. ASHOK N PYATI M.Sc., Ph.D.,
Assistant Professor

- Birth Place: Haveri, Karnataka state;
- M. Sc., Ph.D.
- 3. Ph.D. awarded in 2000 march.
- 4. Publicutions: National and International Journal: 28
- 5. Conferences Seminars workshops Attended: 55

Accomplishments:

Project Fellow: In UGC major Research Project

Under-took a detailed taxonomical survey of Orchids in the Western Glass regions of Karmataka and Kerala.

Ph.D.:

- Investigation to establish techniques for Invitro seed germanation, entrare of seedlings and propagation of some of the important Orelind species of South India.
- Studied in-vitto propagation of four endenne species of deviacy erappor, A manufaction, A rangest and Luxua negoviation.
- Succeeded in in vitro propagation of four popular wild species Doubroham ovarum, D. barbatulum, D. macrostachyum and D. crepulatum, through aseniv seed culture, leaf segment culture, nodal segment culture and PLB culture.
- Effect of various growth adjuncts, plant growth regulators and vitamins were rested during in vitro culture studies.
- Histological studies were done for morphogenesis studies of shoot and next development.

The work resulted in 18 research papers.

Experuse:

- Cytological techniques
- · Breeding techniques
- Brochemical techniques
- Tissue culture techniques

What after M.sc chemistry?

Webinar on 'What after M.Se in Chemistry?'

Organized by

Post Graduate Department of Chemistry

Sarada Vilas College, Mysuru

In Collaboration with

Institute for Advanced Studies

Dates: 3rd March 2022 Time:02 pm to 03 pm Mode: Google meet

Speakers:Mr. Rajiv Abhyankar

Special Invitees: Dr. B. M. Subraya, President, Sarada Vilas Educational Institutions
Sri. N. Chandrashekar, Secretary, Sarada Vilas Educational Institutions

Dr. M. Devika, Principal, Sarada Vilas College

Smt. Suganthi S Singh, IQAC co-ordinator, Sarada Vilas College

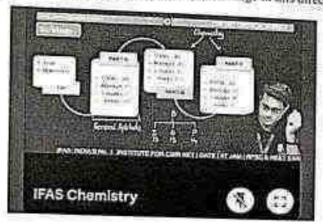

1. Background

Institute for Advanced studies (IfAS) is a private organization with the mission of democratising online examinations like IIT JAM, GATE, TIFR GS, CSIR-NET, SET and so on The team of IFAS competitive of several well qualified persons who not only have the experience of coaching several students but also conducting some career guidance programs for students expecially related to career after M.Sc in Chemistry. The result of this collaboration was the webinar on 3rd March 2022.

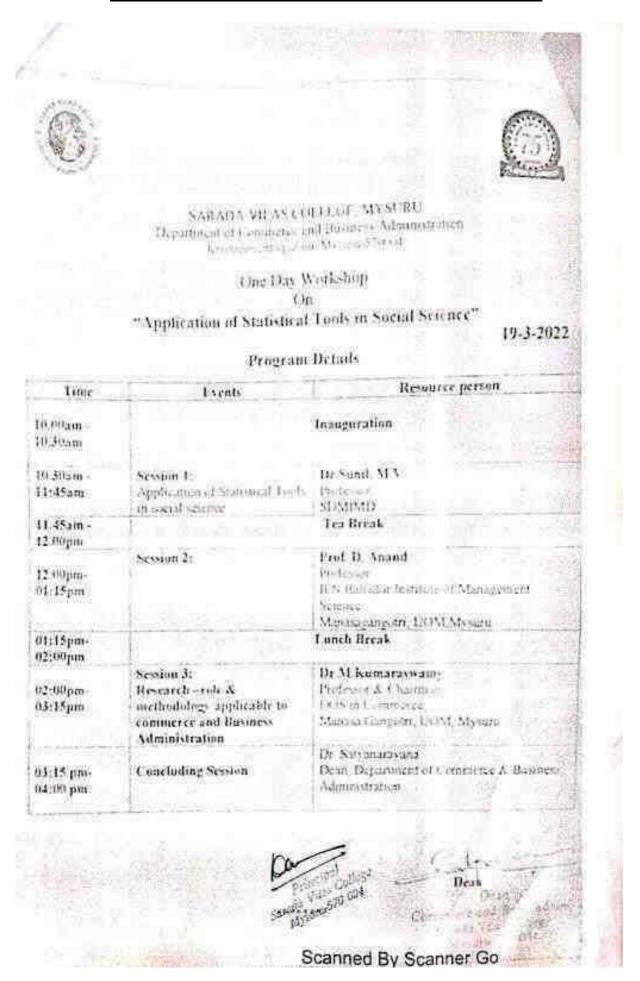

The speaker, Mr. Rajiv, listed various competitive examinations – like CSIR NET, GATE, SET, Assistant professor Exams, ONGC etc – which can be taken by students both from academic and job point of view. Speaker then took CSIR – NET for discussion and discussed the syllabus and structure of question paper. This was followed by a detailed analysis of question papers of past few years. Speaker also gave detailed explanation regarding different areas of chemistry to be focussed and also suggested reference books for preparations. Co-ordinator and Adjunct professor of post graduate department of Lifas chemistry towards the end of the sussion. Nearly 60 students had attended the webinar.

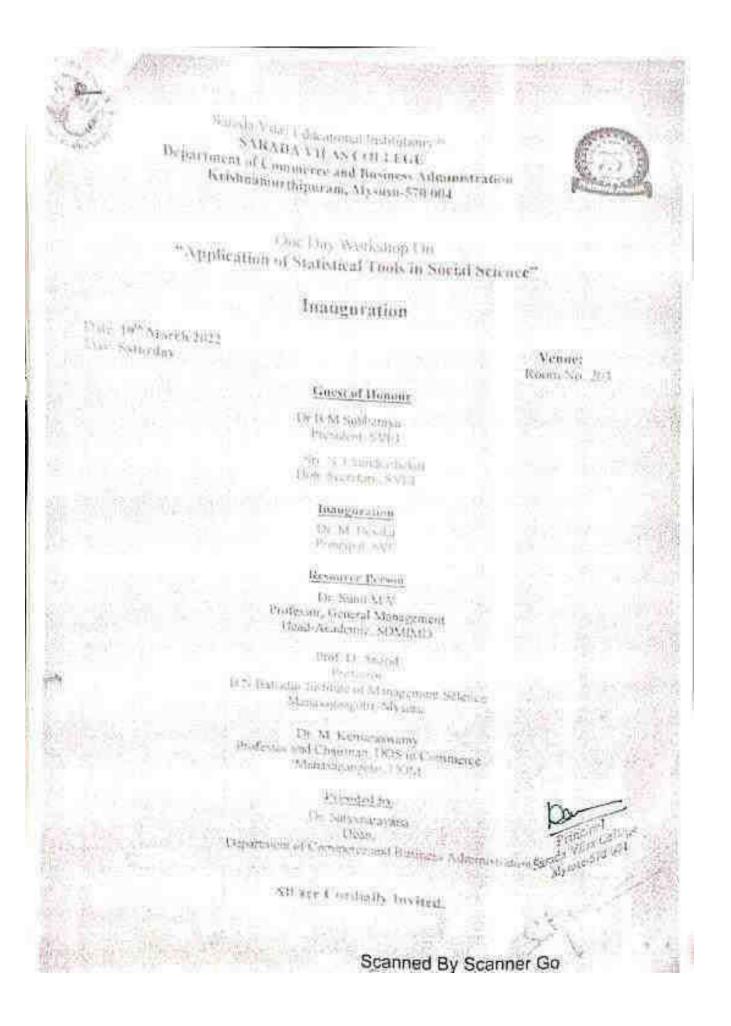

In the webitter, IfAS faculties shared information about the IfAS app and their website. The analysis of question papers of all the examinations as well as some free videos of tutoring are available on their website. Further, materials related to these examinations, though not available for free on their can be availed. IfAS is interested in tying up with Sarada Vilas College in conducting coaching classes especially for Sarada Vilas students in separate batches at discounted fees. Further discussions are yet to happen between IfAS and Sarada Viba College in this direction.

Application of statistical tools in Social Science Research

Sarada vilas College Department of Commece and Business Administration

One day Workshop on "Appliction of Statistical tools in Social Science Research" on 19th March 2022 - Report

Deapertment of Commerce and Business Administration has organised One day Workshop on "Application of Statistical tools in Social Service Research on 19th March 2022 21 faculties participated in the workshop (4 From B Ed college, 1 from PD college, and 16 from Commerce department. SVC). The *Resource persons were invited to share a technical knowledge on the various torses related to research.

The day started with imaginal function Di Sunil M.V. Professor, General Management, Dean-Academics, SDMIMD, Honorable secretary Sti N. Chandrashekar SVFI. Di Devika M, Principal SVC and c were present in the inaginal function. The program started with lighting the lamp by clinel guests. The maneural speech was given by our Honorable Secretary sit and motivated all factors mendion of our institution to take up tescarch activities. Di Devika M. Principal SVC encouraged to take up the research activities. Di Devika M. Principal SVC encouraged to take up the research activities Di Satyantarayara. Dean delivered a presidential speech.

The first session was taken up by Dr Sund M V Professor, General Management, Dean-Academies, SDMIMD on "One of Technology Tools for Esterature Review". He shared his knowledge about various tools available for conducting literature review and how to use various technical tools to literature texacy in the research activities.

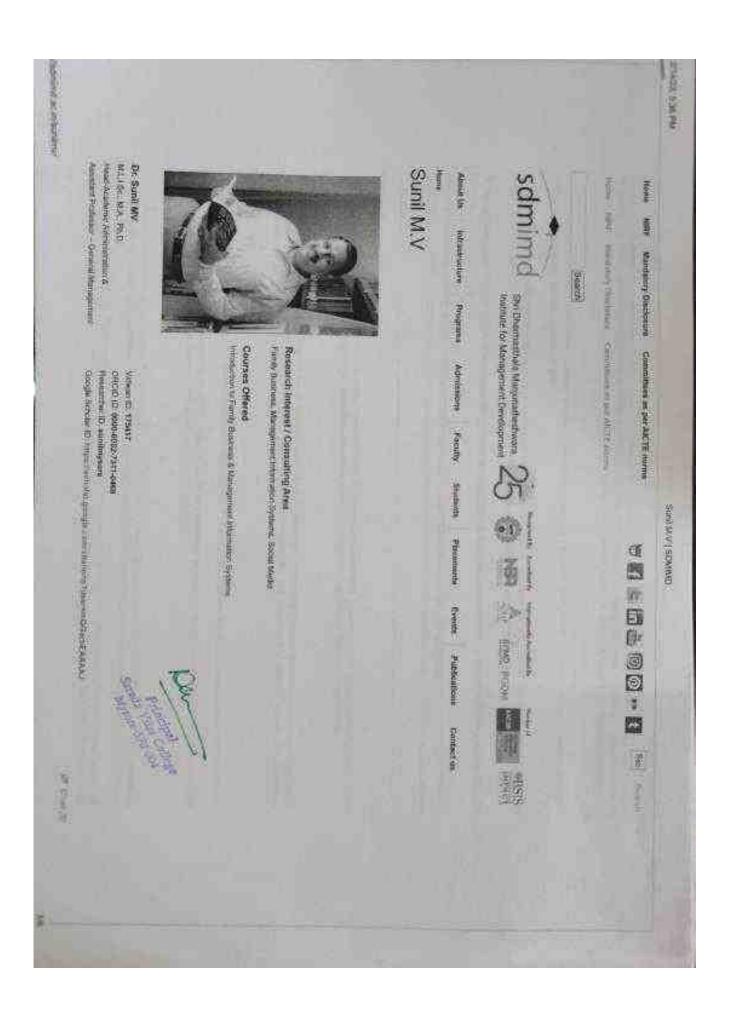

The second session was taken by Di Prashanth Assistant Professor, BIMS, UOM on "Data Analysis" and be shared information about how to analyse the data collected in the research life also discussed about which type of tools to be applied for different data.

At the end of the day in the conclusion session the Devika M. Principal, SVC has delisected a validatory Speech. In her speech she appreciated the Dean and the faulty for their effort in organizing this kind of workshop relating to a research. Also she said it is an essence of the day and wish to all participants to write good number of standard articles and publish in reported journals. Certificates were distributed to all the participants. At end it is inserted to come out with a good research article in a mooth by all the participants.

Bio based sustainable polymer blends for medical applications

Sarada Vilas Cullege,

Krishnamurthypuram, Mysuru-04

Post-Graduate department of Chemistry

Report of National Webinur

Past- Gradiante department of Chemistry, Sarada Vilas College, Mysuru, had organized one day National Webinar, on Bio-based Sustainable polymer Blends for Medical applications at 2.15 pm to 3.45pm. The National Webinar was started with the Invocation by Rukshiffia.S and Dignitaries were welcomed by Dr. Vinusba HM, Assistant Professor, Dr. M. Devika, Principal of Sarada Vilas College, Mysuru, spoke on importance of conducting National Webinar in order to creach the knowledge among the students, Chief Speaker Dr. B. Mahesh, was introduced by Dr. R. Ginterija, Adjunct Professor

The Unit' Speaker, Dr. B. Mahesh had delivered the talk of National Webinar. He started with basic concepts of sustainable polymers, their classification and natural available sources. He gave different synthetic routes to prepare sustainable polymers and their varieties related to application both in medical field and also in our daily life. He also illustrated more number of applications of sustainable polymers in Medical field like Cosmetic surgery, wound heating process etc. About 145 participants got registered for National webinar, Participant's response on National Webinar was overall good.

SARADA VIVAS COLLEGE, BIYSURU DEPARTMENT OF ZOOLDGY

WORLD ENVIRONMENT DAY 2022

"ONLY ONE EARTH"

SPECIAL LECTURE REPORT

The department of Zoology organised a week-long programme regarding th calebration of "World Environment Day- 2022" having the theme "Only On Earth" from the 4th of June to 8th of June 2022.

To create awareness among the students and employees of the college about the need of conservation and protection of wild life, the Department of Zoology adopted an "Indian cobra" from Jayachamarajendra Zoological Garden, Mysuru. Students with faculties visited the Zoological Garden on 4th June noon at 2:30 pm and enjoyed visiting the adopted animal in the

On 6th June 11:30am, a special fecture with interactive session was organised by the department. Former scientist, Mr. Yogendra B S, In charge Education Section, RMNH, Mysuru., was the chief speaker. Mr. Yogendra spoke about the need of conservation of the only planet we currently have to support life. He expressed that the use of plastic is efficient whereas the use of "single use plastic" has to be minimal. Interaction was made about the 4R's that one needs to follow in there day to day life with regard to the use of resource. By the end of the vession, all the students pledged to not no for the use of single use plastics and would refuse spontaneously.

Sarada Vilas Educational institution is fortunate to have a wide campus with a vivid flora distribution. Reeping in mind, the reducing number of sparrows due to habitat loss, the department of Zoology made a small survey to but down the number of buildings possessing buked clay tales as the realing

If tailored earthen nets with a coat of coir over it were bought and affect in such sparrow friendly places of the institution on Gh June 2022. The presence of dignitaries of the institution, Dr. M Devika, Principal Sarada vitas College, Dr. Hanumanthachar joshi, Principal, College of Pharmacy, and other sister institution heads graced the function.

Under the sector of green waste management of college, the department also inaugurated the "Vermi-composting" unit setup located in the playground area of the institution under the guidance of pragathipara krishika, Mr. Rohit R and Mrs. Rekha Rohit. Students actively participated in the activities; they learnt the sustainable way of recycling the available resources by composting. In-house green waste was gathered, stacked and regularly watered by the students. Earthworms were later introduced into the compost units.

The efforts & dedication of Zoology students as well as faculties., Mrs. Shakunthala (Assistant Professor & Head) and Ms. Gowri A Hoysala (Assistant Professor) was appreciated by the principal and the management of the institution.

The encouragement and appreciation shown by the Principal Dr. M Devika has always been the driving force for all the departmental activities for which the department members feel thankful and grateful.

REPORT ON CELEBRATION OF WORLD ENVIRONMENT DAY

People across the globe celebrate World Environment Day on June 5th every year. The main ann of the day is to create accuracy among people about the unpertance of nature and its concervation. Several events are organized on this day by the United Naturus Environment Programme (UNIP). Every year there is a different thense to celebrate the day. This year's World Environment Day theme is set as "Only One Earth".

Sarada Vilus College being the esteemed higher calication institution in the city of Mysteri celebrates, several national and international days, to create social awareness among the students of the institution.

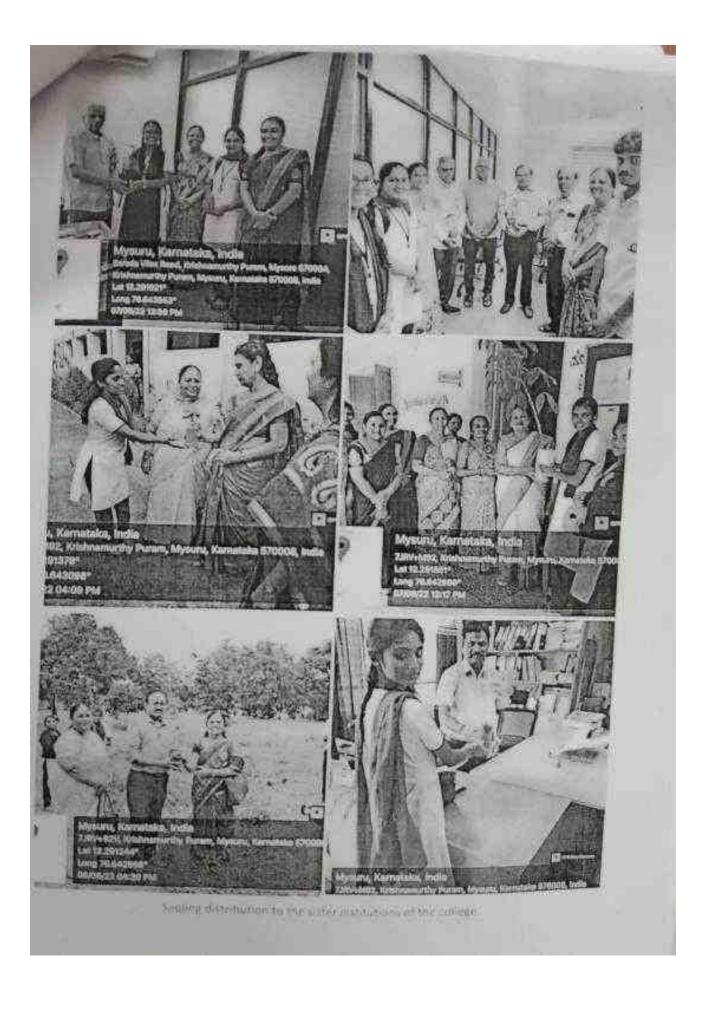

One such activity was the effektation of World Environment Day organized by the Department of Botony reconsecy the masse get to people about the need for the conservation of mature and natural resources.

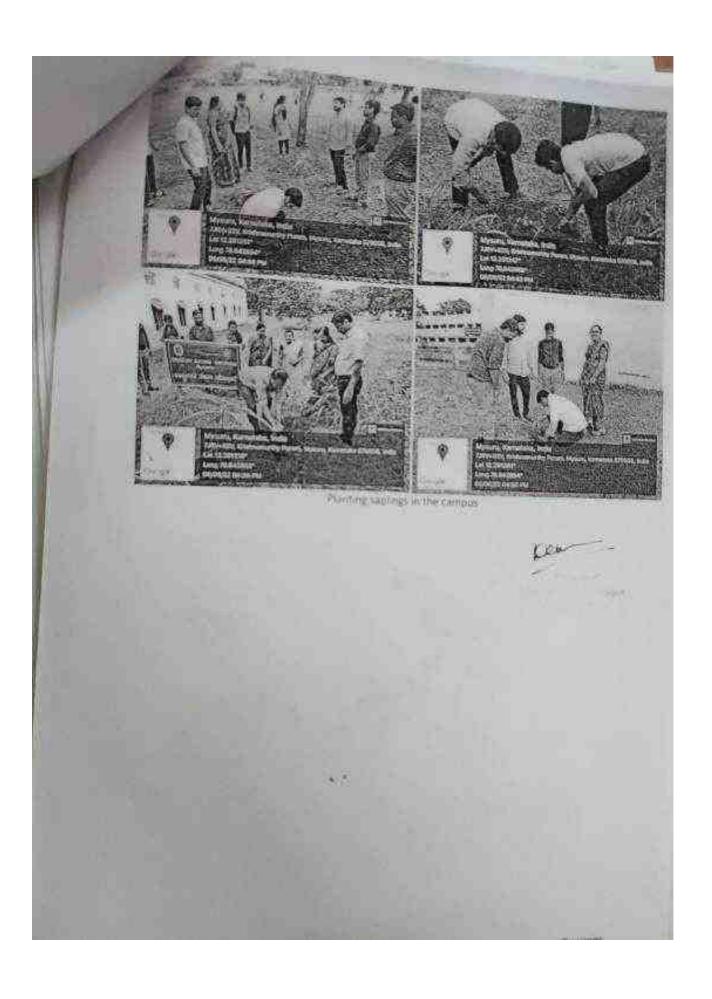

With this objective an initiative was taken by the Department of Botany, to plant tree saplings in the campus, which giorifies the campus with greenery

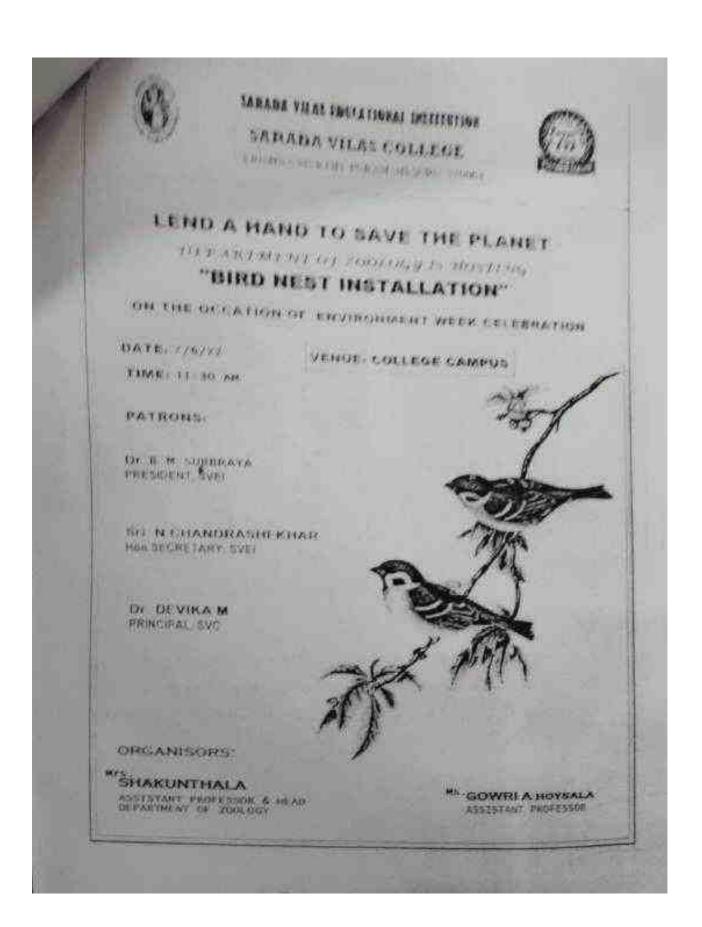

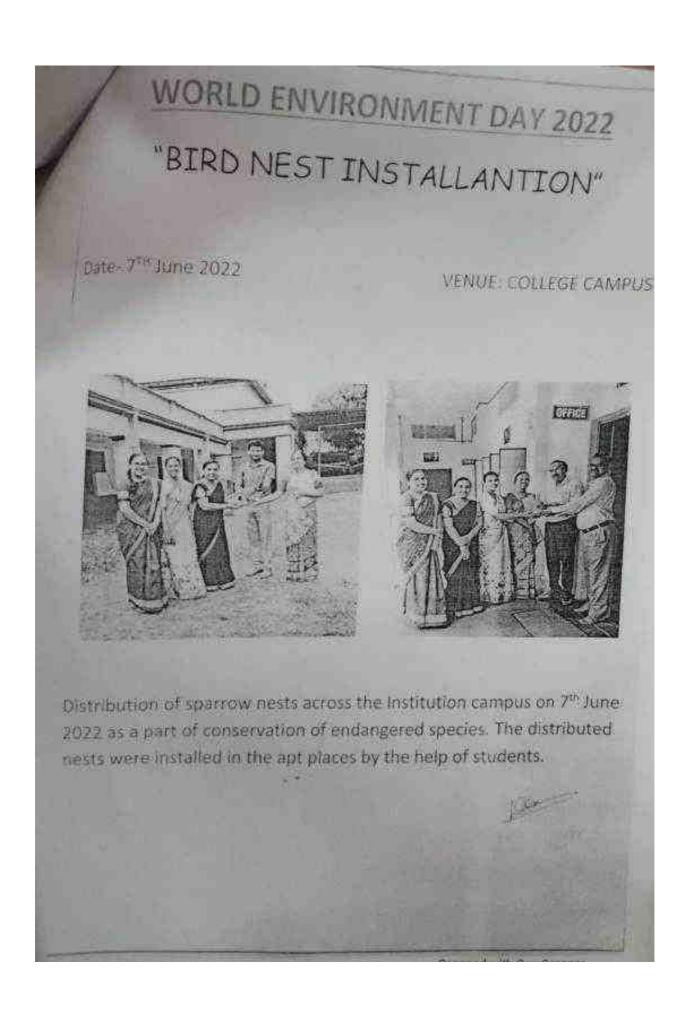

The department also made an attempt to spread the greenery in the campes by distributing the suplings to the sister institutions of Sarada Vilas College, thereby encouraging them to take part in the conservation of nature.

World Environment Day is not past a celebration but also a reminder to take the best-care of our surroundings. Therefore, it is the duty of every person in the world to protect mother nature, in cach and every step of life without over-exploiting for resources. The makes every day an ENVIRONMENT DAY rather than exhibitating it for our day.

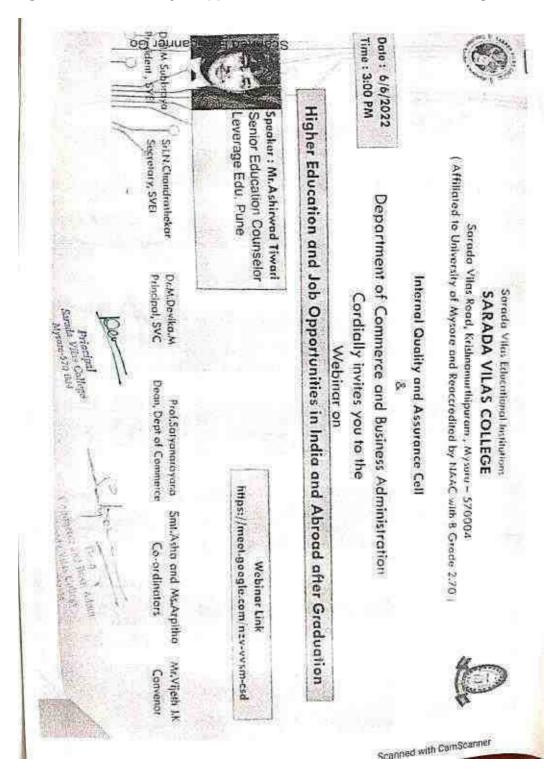

Higher education and job opportunities in India and abroad after graduation

Orientation Program On Entrepreneurship in GST Profession At Sarada Viras College

Orientation Program on Entrepreneurship in GST Profession at Sarada Vilas College, Mysuru

The team from EduCievate met the students of Sarada Vilas College, Mysore on 10th June 2022 and organised crientation program on Entrepreheurship in GST Profession.

Change is inevitable. Transition period is always tedious. So is the transition for students from their under graduate academics to career as entrepreheurs in GST domain. Students deserve time to unwind themselves to forge new relations with the real world and familiarize themselves with the new environment. Orientation program helps in making students of 8 Com, and 88A feet comfortable and decide about their career from among many options available to them.

"Opportunities knock only once at your door," goes a famous saying, indeed, GST is that one knock in terms of opportunities for Indian graduates in Commerce and Management, GST in India is being termed as the country's most comprehensive and biggest taxation-curr-economic reform since independence. GST is historical indirect tax reform in India. There has been a paradigm shift in the Indirect Tax structure with the GST rollaut on July 1, 2017. It is really important to understand and assimilate the new GS1 in India, new compliances and the changes in processes in operating business

Surada Vilus College

476

To help graduate and post graduates in Commerce & Management with the ongoing changes and to make them GST experts. EduElevate has faunched "Entrepreneurship Training in GST Profession". The objective of this Course is to provide knowledge of practical aspects of GST to the students and make them JOB GIVERS instead of JOB SEEKERS.

In this regard, Prof. Shankar Narayana Rao, Director, EduElevate addressed the students of Sarada Vilas College on 10th June 2022 on the scope and opportunities in GST profession. He narrated the steps to be fulfilled to register as a GST Practitioner. He also explained in detail versous functions and duties of a GST Practitioner.

Mr. Karthik Kumar, Managing Birector, EduElevate made the program more interesting by illustrating the examples of various famous personalities. He invited the students whose parents are entrepreneurs. 6 students shared the experience of their parents regarding entrepreneurship. It is this type of involvement of activity of students in the program that motivates others to become entrepreneurs. 185 students out of 202 present in the program have shown interest to pursue GST profession as their career.

Dr. Devika, Principal of the College explained the need of students to develop entrepreneurial skills and become GST Practitioners. Dr. Sathyacarayana, Dean, Dept of Commerce & Management delivered key note address and explained the need of pursuing professional courses in developing a student's career. Dr. Jyothi A.N.—HoD. MR. Nagendra P. Smt. Asha K.C. Mr. Puneeth V. Mr. Mahendra B.S. Mr. Rajkingse S.N. Mr. Chethin B., Mr. Mallikarjun Aradhya H.N., Smt. Chaitra H.V., Smt. Sowmya M.A., Smt. Pragathi, Smt. Pragati, Smt. Surcop and other faculty members of the Department of Commerce & Management and many non-teaching staff were present in the program.

On behalf of EduElevate, we take this opportunity to thank the Principal and all the faculty members of the Department of Commerce & Management and non-leaching staff who made this program a grand success.

REPORT ON IPR

Report on the Special lecture on Intellectual Property rights conducted on 18th June 2022. A special lecture on intellectual Property Rights: Patents, was conducted by Department of Microbiology and Biotechnology in association with IQAC, Sarada Vilas College, Mysuru on 18/06/2022 at A.V. Hall. Over 65 participants attended the special lecture. Participants and the guest of honour were welcomed by Dr. Manasa Ravindra Walmiki at 11.30 am, followed by initial remarks from Dr. M Devika, Principal, Sarada Vilas College. During her inaugural address Principal, Dr. M Devika stressed the importance of IPR and its relevance in these times and its necessity for the advancement in research and development in India. Guest speaker Mrs. Sunethra-Derebnil (Senior IP Specialist, OTT, C-CAMP, GKVK Campus, Bangalore) presided over the session, who spoke on the topic of "Patents - Procedural and Legal Aspects". Her lecture started with an introduction to Intellectual Property Laws and spanned across the different disciplines related to patents and patent filling. She pointed out that IPR is no more confined to the legal finternity, but has spread across all disciplines because of which it has an impact and significance on arts, science, commerce, management and business. IPR have great significance not only in the uplifting the knowledge economy but also in fine-tuning it. She elucidated the meaning of intellectual use of traditional knowledge with an example of basmati rice case of 1997. She explained how to file a patent in India itself with respect to life science, biotechnology, computer science and physical sciences and also in the context of collaboration research. She briefed on IPR laws in different countries like USA, Germany, UK etc. She concluded the talk by explaining the rationale of protection and the nature of IPR. The session was concluded at 12.30 pm followed by interaction with participants and vote of thanks by Ms. Monica (2nd Sem, BtBc, SVC), The Special lecture was highly informative to students and teachers from other departments. Thus webinar provided valuable awareness and insights on the various aspects of IPR.

Sunethra Sudhakar Derebail

Sunethra Sudhakar Derebail has over 8 years of experience in the field of patents, particularly in the areas of patent search, landscape analysis, invalidation analysis, patent drafting and prosecution. She holds a master's degree in Biochemistry from the University of Mysore and a law degree from Karnataka State Law University. She is a registered Indian Patent Agent (IN/PA- 3770). She has drafted and prosecuted several Indian patent applications and attended hearings at the Indian Patent Office. Further, she has extensive experience in responding to US and European Office Actions.

Prior to her current role as Senior IP Specialist at OTT@C-CAMP, she has worked as Lead Patent Attorney (Life Science practice) at Zacco India Private Limited (June 2019 – Sep 2021), Senior Patent Associate at Clairvolex IP Solutions (Jan 2017 – Mar 2019) and as a Patent Associate at K&S Partners (Sep 2012 - Sep 2015).

She has managed patent portfolios pertaining to the fields of Biochemistry, Organic Chemistry, Biotechnology, Medical devices and Material Science. In her current role, she is involved in reviewing invention Disclosure Forms, invention harvesting, conducting prior art searches, rendering opinion on patentability, patent application drafting, overseeing timely prosecution of applications till grant. She is frequently called upon to deliver talks on IP related subjects.
