About the SVEI: The saga of **Sarada Vilas Educational Institutions** began in the year **1861** when His Highness **Mummadi Sri. Krishna raja Wodeyar**, the then ruler of Mysore state, directed his court man **Rao Bahadur Sri. BhakshiNarasappa** to start an Educational Institution in Mysore so as to make the town a Centre for Education. In keeping with the desire of the king, **Sri. Narasappa** founded a school and named it **Sarada Vilas Anglo-Sanskrit School**. In the beginning, it was housed in a temple and later shifted to the Lansdowne building. In 1899, the king formed a Governing Body to manage the affairs of the school. **Sri. M. Venkatakrisnaiah**, popularly called **Tatiana**, was named the Secretary. He was mainly instrumental in developing the Institution. In 1904, the school was shifted to the Lansdowne building. The High school section was started in 1917 which was shifted to its own building in 1931.

About The College: Sarada Vilas College is one of the educational institutions managed by Sarada Vilas Educational Institutions. It was established in the year 1945 as an intermediate college and later upgraded as Degree College in 1952 with B.Sc course. Since then it is giving a quality education in the field of science. The college expanded its academic activities in the field of Commerce and Business Administration from the year 2013, offering B.Com and BBM/BBA. It has also entered to the post-graduation course offering, M.Sc & M.Com. It has started a new programme B.Sc. Hon's in Data Science and Artificial Intelligence.

Value Added Courses: The integration of value added courses focus on leveraging the talent and innovative capabilities of the budding professionals to meet the needs of the contemporary dynamic business environment thus making the student more industry ready. The value added programs supplements students learning and enhances their preparedness to meet the challenges of professional life. These programs enable the students to acquire a more holistic perspective and thus have better understanding of issues in the present-day industry challenges and also facilitate the students to gain and develop innovative and creative skills through a wide array of course offered.

The industry demands in contemporary times has become enormously competitive, the need for skilled professionals possessing diverse persona are best fit to meet the industry demand. Present work environment have become more target oriented, quality determined, skill and competence driven. A multi-disciplinary and application oriented focus is expected to make the student industry ready is at the core of the development and delivery of the value added courses.

2022-2023

This is to bring to the kind notice that a meeting is scheduled at 11.30 am on 15-9-2022.

Agenda of the meeting

To discuss about conducting of certificate course for the students. This will enhance their knowledge and skill orientation.

The departments have to present the certificate courses which they are offering, course details, time duration, outcome and concerned faculty in charge to be appointed.

All the Heads of department should take initiatives in organizing these certificate courses which will be benefitted to students along with the supportive curriculum.

Resolutions for meeting held on 23/9/2022

1. The department held a meeting on 23/9/2022 along with Principal & IQAC coordinator and staff members. The department decided to start the certificate course on "Medical Physics".
2. The course focuses on enhancement of knowledge and skill in "MEDICAL PHYSICS".
3. The course is mainly offered to students to bring awareness about, various medical equipment's available in medical industries which function on the principles of Physics.
4. The syllabus of the course is discussed and presented in the meeting and approved in the BoS.
5. The duration of the course is 30hrs.
6. Mr. Prathap M R & Mr. Dhanushchandraguru H M is the in charge faculties of this certificate course.
7. The classes will be conducted from 20/10/2022 to 20/1/2023.
8. The detail time table is attached with this resolution.
9. The attendance of students has to be maintained.
10. The students will be awarded with a certificate after completion of this course.

SYLLABUS FOR ADD - ON COURSE

Physics of Medical Diagnostics

Principle of production of X-rays. Use of X-rays in medical diagnosis, X-ray imaging systems. Computed Tomography (CT): principle and generation of CT. Magnetic Resonance Imaging (MRI): basic principle and image characteristics. Ultrasound Imaging: Interaction of sound waves with body tissues, production of ultrasound, transducers, acoustic coupling, image formation, modes of image display and color Doppler.

Physics of Radiotherapy

Clinical aspects of radiation therapy: Biological basis of radiotherapy, radiation Sources, radiation dose, time dose fractionation. External beam radiation therapy, radiation therapy modalities, production of radioisotopes, use of radioisotopes in therapy, particle and ion beam radiotherapy. Brachytherapy - principle of brachytherapy and classification of brachytherapy techniques.

Outcome

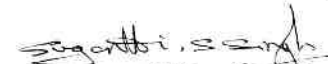

- Medical physics includes areas such as
- Radiotherapy physics, diagnostic radiotherapy physics, nuclear medicine physics and radiation protection.
- Medical physics provides the technical foundation of radiology, radiation oncology, nuclear medicine and radiation safety.
- In each and every field of medicine, physics plays major role.
- Students acquire special competence within one or more academic fields this may be biomaterials, image based medical diagnostics, radiation physics, modern radiation therapy, radiobiology, radiation therapy for cancer, radio immunotherapy.
- Overall this course provides a birds view of different types of medical equipment's used in medical field which works with the principle of physics.
- This course gives a kind of confidence to the students, when a member of their family, falls sick and require such treatments.

Add-on/Certificate course on 'Quantitative Aptitude and Reasoning'

2022-23

Background

"Aptitude and reasoning" is the name of one area of problems found in nearly all competitive exams. Furthermore, basic reasoning and logic, as well as computations with numbers, including natural numbers and fractions, are a necessary element of daily life. It should be mentioned that many students have disliked mathematics since they were young for a variety of reasons. With all of this in mind, this certificate programme has been created to assist students in developing fundamental aptitude and numeracy skills. The students benefit from this training in both their daily lives and competitive exams.

Eligibility for admission into the course and structure

Any final year B.Sc/B.Com student studying in Sarada Vilas College during 2022-23 is eligible for this course. The course is of 30 hours duration (distributed over two or three months).

Eligibility for certificate

A candidate fulfilling all the below mentioned criteria are eligible for the certificate.

Attendance: 75 %

Overall score: 50%

Assessment pattern

There will be two formative assessments C1 and C2 each for 20 marks.

C1 – Test (20 Marks)

C2 – Assignment or Quiz (20 Marks)

A final summative assessment C3 will be for 60 marks.

(Hence a candidate with attendance greater than or equal to 75% will be considered pass only if he scores 50 marks out of 100)

Grading

Distinction – for scores greater than or equal to 80%

First Class – For scores greater than or equal to 60% and less than 80%

Pass Class – Greater than or equal to 50% and less than 60%

Not cleared – Less than 50%

CURRICULUM FOR ADD ON COURSE

Course title: Algal Cultivation techniques

Unit I: A brief account of culture techniques and media for algal research. Measurement of algal growth: lag phase, log phase, stationary phase and death phase using biomass and chlorophyll content. Limits to algal growth in natural waters. Dynamics and consequences of marine & freshwater algal blooms;

Unit II: Causative factors for eutrophication and its impact on algal blooms. Algal immobilization: methods and applications, algal technologies for the restoration/maintenance of soil fertility; reclamation of user soils. Restoration of degraded aquatic systems through algae; High rate algal ponds for the treatment of wastewaters for the production of useful biomass & fuels.

Unit III: Emerging areas of Algal Biotechnology: Single cell proteins, bio-fertilizers, algae as food, medicine, feed, and biofuel, industrial products such as phyco-colloid (Agar-agar, algin, Carrageenan, Diatomite); a brief account of commercial potentials of algal products & their uses. Algae as indicators of pollution. Bio fouling, Sewage disposal. Waste-land reclamation. Use of Algae in experimental studies. Algae in space. Algal toxins.

This is to bring to the kind notice that a meeting is scheduled at 11.30 am on 15-9-2022.

Agenda of the meeting

To discuss about conducting of certificate course for the students. This will enhance their knowledge and skill orientation.

The departments have to present the certificate courses which they are offering, course details, time duration, outcome and concerned faculty in charge to be appointed.

All the Heads of department should take initiatives in organizing these certificate courses which will be benefitted to students along with the supportive curriculum.

Minutes of Meeting on Add-on Certificate Course

The meeting on the add-on certificate course for final year B.Sc., BMBT students for the academic year 2022-23 by Department of Microbiology was held on 19/09/2022 at the department in the presence of the Principal and IQAC Co-ordinator.

Agenda :

1. Design and title of the Course.
2. Allotment of faculty and their responsibilities.
3. Planning of course duration.
4. Preparation of assessment procedure.

Members present for the meeting :

Sl. No.	Members name	Signature
1.	Dr. Devika M. (Principal)	
2.	Smt. Suganthi S. Singh (IQAC co-ordinator)	
3.	Capt. R.A. Manjunath (HOD, Dept. of Microbiology)	
4.	Sri. Tribhuvan K. R. (Course in-charge)	
5.	Sri. Abhilash H.S. (Course in-charge)	

Points Discussed & Meeting Resolutions :

1. The course plan was designed around the topics of microbial culture media preparation, methods for isolation of pure culture, and preservation of pure cultures.
2. The course was titled "**Microbial Culture Techniques**" and was scheduled to be held between 15/10/2022 to 31/01/2023.
3. The total duration of 30 hours was allotted to the course with 14 hours of theory and 16 hours of practical sessions.
4. Sri. Tribhuvan K.R. and Sri Abhilash H.S., were nominated the faculty in-charge for the certificate course.
5. The prepared syllabus was scrutinized for time feasibility and was approved.
6. The outcome of the course and the details of award of certificates to students were also discussed.
7. The pattern of attendance and assessment procedure was also finalized.

SYLLABUS

Unit I - Sterilization techniques

- 7 H

Terminologies - sterilization, disinfectant, antiseptic, sanitizer, germicide, microbicidal agents, microbiostatic agent and antimicrobial agent.

Physical methods of sterilization: Dry heat sterilization - Flaming, incineration and hot air (Hot air oven); Moist heat sterilization - Boiling & steam (Autoclave); Pasteurization, Fractional sterilization-Tyndallization. Filtration - Diatomaceous earth filter, seitz filter, membrane filter and HEPA. Radiation - Ionizing radiation (γ & X rays) and non-ionizing radiation (UV rays)

Chemical methods of sterilization: Alcohol, aldehydes, phenols, peroxides, halogens, metals, quaternary ammonium compounds, antibiotics and sterilizing gases as antimicrobial agents.

Unit II - Pure Culture Techniques

- 7 H

Culture Media: Components of media, natural and synthetic media, chemically defined media, complex media, selective, differential, indicator, enriched and enrichment media

Pure culture methods: Serial dilution and plating methods - pour, spread, streak, replica.

Colony characteristics & growth measurement: Bacterial colony characters and fungal colony characters, Growth curve, enumeration methods (turbidity, cell counting, colony counting)

Preservation of microorganisms: Methods of preservation of microorganisms; slant culture, stab culture, soil culture, mineral oil overlaying, glycerol preservation.

- 16 H

Practical

1. Preparation and sterilization of labwares for microbiology.
2. Components and preparation of media for culture of bacteria & fungi
3. Isolation of bacteria & fungi from soil, water and air - serial dilution, pour plate, spread plate, and air exposure methods.
4. Identification and recording of colony characteristics and enumeration (CFU).
5. Pure culture techniques - streak plate, replica plate & point inoculation.
6. Sub culture techniques - slant culture & stab inoculation.
7. Preservation of pure cultures - refrigeration & mineral oil overlaying.

Add on Certificate Course Outcome

"Microbial Culture Techniques"

- ❖ Culture techniques are the fundamental skill necessary in all divisions of microbiology like isolation and characterisation; industrial applications such as fermentation and pharmaceuticals; disease & diagnostics; genetic studies and engineering; etc.
- ❖ This course offers understanding of the principal and applications of sterilization techniques through practical exercise.
- ❖ The course also focuses on the types of media used in microbial culture and the role of key components.
- ❖ Students will be able to identify and record the colony characteristics of bacterial and fungal origins.
- ❖ Students will also obtain competence in handling of laboratory tools such as hot air oven, autoclave, burners, incubator, pipettes, and other labwares.
- ❖ Students will also learn the key differences between different types of culture techniques and involve these techniques in routine microbial isolation experiments.
- ❖ The course also focuses on preservation of pure culture.
- ❖ Overall the course will provide the proper understanding and practical experience of sterilization, media preparation, isolation, pure culture, sub-culture and preservation techniques for a strong foundation in basic skills for any microbiologist in both academic and industrial setup.

Add on Certificate Course on "*Microbial Culture Techniques*" 2022-23

Course Length : 30 Hours
Course Duration : 15/10/2022 - 31/01/2023
Class timing : Saturday 2 to 4 pm.
Course in-charge : 1. Sri Tribhuvan K. R.
2. Sri Abhilash H. S.

No. of Participants : 39

The Department of Microbiology conducted an add-on certificate course of 30 hours titled "*Microbial Culture Techniques*" duration for the final year B.Sc. BMBT students of Sarada Vilas College as a tool for empowering them with the basic skills necessary to flourish in the field of microbiology.

Sri. Tribhuvan K.R. and Sri. Abhilash H.S., Assistant professors, Dept. of Biotechnology, Sarada Vilas College were in-charge of the course curriculum. A total of 39 students took part in the course. The students underwent theoretical and practical training in various techniques and methods used in basic microbial studies. The students were assessed upon completion of the course and were issued certificate of participation in the add-on course.

CURRICULUM FOR MICROBIAL BIOCHEMISTRY

Unit I:

- Spontaneous generation (abiogenesis), Biogenesis, Germ Theory of Disease, Koch's Postulates, Scope of Microbiology. Microorganisms in biological world Whittaker's Fivekingdom and three-kingdom concept of living organisms (General characteristics of those groups); General features of Eubacteria and Archaeobacteria (major difference within Eubacteria).
- Staining techniques and bacterial morphology and subcellular structures. Definition of auxochrome; Chromophores; Acidic and Basic dyes; Classification of stains; Simple and differential staining: theories of staining, Gram staining; acid fast staining; endospore staining; mechanism of gram staining.

Unit II:

- Microbial Nutrition: Nutritional types (definition and example) - Photoautotrophs, Photoorganotrophs, Chemolithotrophs (ammonia, nitrite, sulfur, hydrogen, iron oxidizingbacteria); Chemo organotrophs, Effect of oxygen on growth - classification on the basis of oxygen requirement and tolerance.
- Bacterial Growth and its regulation: Growth phases - Generation time. Kinetics of growth, Batch culture. Continuous culture. Synchronous culture (definition and brief description). Physical factors influencing growth temperature. pH, osmotic pressure, salt concentration. Sterilization, disinfection, antiseptic, sanitizer, germicide, antimicrobial agent (definition, application & examples); physical method of disinfection and sterilization - dry heat, moist heat, filtration, radiation (mode of action, applications); Chemical control - dye solutions, alcohol, acid, alkali, halogen, heavy metal, phenol, phenol derivatives, formaldehyde, ethylene oxide, detergents (mode of action, applications).

Unit III:

- Chemotherapeutic agents - sulphonamides, antibiotics, (definition types); mechanism of action and antimicrobial spectrum of penicillin, streptomycin, tetracycline, chloramphenicol, Nalidixic acid and metronidazole; drug resistance - phenomena and mechanism.

COURSE OUTCOME FOR MICROBIAL BIOCHEMISTRY

On successful completion of the course, students will be able to:

- Familiarize basic concepts in microscopy and sterilization procedures:
- Explain general characters of different groups of microbes and culturing media:
- Explain classification of microbes and examine different methods for bacterial identification, growth, and regulation.
- Understand core concepts and fundamentals of chemotherapeutic agents and their mechanism.

Aspects of Communication and Usage of English Grammar
2022-23

Outcome:

The following are the advantages for students after completing this course:

In many facets of life, effective communication is fundamental to success. Language plays an important role as the main medium for learning in both formal and informal educational settings.

This certificate programme aims to gradually enhance students' LSRW (listening, speaking, reading, and writing) abilities using a communicative approach to teaching and gaining a foundational grasp of language. Additionally, it might help them with grammar and vocabulary. As a result, students may be able to apply to graduate programmes and pursue careers as writers, editors, researchers, etc. Students improve their writing abilities and communication skills as a result of this. Furthermore, this certification validates their skill set and lends legitimacy to prospective employers.

Report on the Certificate Course

In order to support final-year BSc students with their professional development and exam preparation, we arranged a certificate course on basic English grammar and conversational abilities for the academic year 2022–2023. In accordance with their fifth semester, the classes ran from October to December for three months. Since the goal is to improve a student's capacity to utilise the global language for their own well-being, the schedule is designed such that the teacher must pay close attention to each student's performance in class. Thirty students in total registered for the course; we divided them into two batches, with each batch attending two courses per week.

Background:

As a part of women empowerment, Mahindra Pride Classroom program has been initiated by Mahindra Group of Companies as their CSR contribution. The Program, with the tagline, 'Employability with Empathy and Emotion' aims at equipping young girls with essential life skills and soft skills which are very much required in today's complex society.

In order to carry out their project, Mahindra has tied up with another organization named Nandi Foundation, which is one of the largest and fastest growing social sector organizations in India working to make poverty a history in India.

Both Mahindra Group and Nandi Foundation are running this soft skill training program for girls across the country by joining hands with the Government. In Mysuru too, in association with District Skill Mission organized this one week training for girls in Sarada Vilas College from 7th of November 2022 to 12th of November 2022.

Formalities:

Inauguration

On day one, that is on 7th November, 2023, the one week training program was inaugurated by Mr. Narayan, Director, District Skill Department Mysuru and Mr. Sudarshan C, Assistant Director, District Skill Department Mysuru. Speaking on this occasion, Mr. Sudarshan explained in brief the various opportunities available for students from the skill department. Sri. N. Chandrashekar, Hon. Secretary of SVEI also spoke on this occasion praising the unique efforts of Sarada Vilas College in equipping the students with necessary skills for the current scenario. Mr. Sudarshan C and Mr. Narayan were felicitated by the dignitaries and the placement cell members. Dr. M. Devika, Principal, Sarada Vilas College delivered the presidential address requesting students to make use of bunch of opportunities created by the college.

Ms. Kavya Iyer, Nandi Foundation, resource person for the training, Mr. Vinayak, Coordinator of the Skill Department, Mysuru, members of Placement Cell of Sarada Vilas College and 30 final year girls of B.Sc., B.Com and B.B.A were present on the occasion.

Valedictory

On Day 6 that is on 12th a valedictory program was organized. Sri. N. Chandrashekar, Hon. Secretary, SVEI, Dr. Sathyanarayana, Dean, Department of Commerce and Business Administration and Dr. M. Devika, Principal, Sarada Vilas College were present in the event. Sharing their experiences of the last 6 days, students expressed the kind of transformations happened within them. Few of the students in whom a drastic change was observed from day 1 to 6, were identified and were given awards from the Nandi Foundation. Sri. N. Chandrashekar, Dr. Satyanarayana and Dr. Devika M spoke on the occasion

Report

Background:

CPBFI is a Certificate Program in Banking Finance and Insurance carried out by Bajaj Finserv in association with Walchand Plus throughout the country to upgrade the skills of the students in the areas of banking, finance and insurance so that they are ready for the industry. This is a 100 hour program with four main modules. The program also includes one HR workshop with mock interviews giving feedback on the performances in the interview. Sarada Vilas College and Bajaj Finserv entered into an MoU in 2022 to run CPBFI courses in Sarada Vilas College.

Following the success of the first batch, orientation for the second batch of CPBFI was organized on 19th of June, 2023. Previous batch, which ran from November 2022 to March 2023, comprised of final year B.Com. students. For the second batch of CPBFI, first year M.Com was chosen as the target group.

Formalities:

After the welcome of the guests and the audience by Mr. Yathiraj, four students of the first CPBFI batch who were part of the previous CPBFI batch shared their experiences about CPBFI. This was followed by a speech of Sri. N. Chandrashekar, Hon. Secretary, SVEI who stressed on the importance of such programs. Certificates were issued thereafter to the students of the first batch.

Orientation:

Ms. Rashmi Mansukhani oriented the students through zoom on the necessity of CPBFI by explaining a survey indicating the lack of certain skills in students as required by the industries. Ms. Rashmi then explained how CPBFI is going to bridge the gap. She then explained the structure of CPBFI and the aspects covered in the program. Though session was online, the facilitator tried to make it interactive by asking questions and interacting through the chat box.

After the session by Ms. Rashmi, Mr. Rajeev G. P. spent nearly 30 minutes motivating the students to take up CPBFI. The responses of the students were positive.

Mr. Akshaya H. L., and Mr. Yathirajsharma M.V, conveners of placement cell, Mr. Pratap M. R, Ms. Arpitha K and Mr. Raj Kishore S.N., members of career guidance and placement cell were present. Ms. Arpitha K moderated the entire program.
