Date: 3<sup>rd</sup> September, 2022

Venue: Centenary hall

The Orientation Program regarding the proposed digital skill fluency training was held on Sept 3<sup>rd</sup> at 10 am at SVEI (R) campus. Duration of the session was about 90 minutes which helped the students in their placements, facing the interviews and resume writing, building inter personal and soft skills etc. The second year and final year students of both science and commerce stream students were being benefited by it. The session was inaugurated by D.N. Vasuki, IT Consultant and Member Board of the National Institute of Engineering, Ram Bhopal Reddy of Max-Munus Solutions, Prof. G.L.Shekar, Educationist. Speaking at the inauguration of the Novel Digital Skilling Initiative organized by Sarada Vilas Educational Institutions, D.N. Vasuki opined that time has come to provide digital skill competence to every graduating student irrespective of his/her specialization. About 30 million students graduate every year across different disciplines in the country and it was the

responsibility of the management of the educational institutions to enable every student to become fluent in digital skills. He also stated that the current dynamics in education, more so after implementation of National Education Policy (NEP) and abundant job opportunities in the industrial and service sectors, students should learn digital skills like social media and digital marketing, business and data analytics. 43% of the jobs available in market come under non- tech jobs and hence such digital skills are highly essential for non engineering graduates, be it Science, Law or Pharma. While delivering a technical talk, Ram Bhopal Reddy of Max-Munus Solutions said that maintaining a good customer relationship required digital skills, especially in product and service sectors. More and more number of users is going online and students seeking jobs should build relevant digital competencies. Referring to the recent surveys conducted by management consulting groups, Prof. G.L.Shekar, educationist stated that India would be the global leader in providing talent pool which is estimated at 20% of the world's working population by 2047. Skilling graduating students to better their employability must be the focus of educational institutions. Sri. N. Chandrashekhar, Hon.
